**The Story of Attila in Prose** May 14 2021 The Story of Attila in Prose is the first critical edition and translation of the thirteenth century Franco-Italian prose text the *Estoire d'Atile en prose*. Preserved in two anonymous and untitled manuscripts composed between the last quarter of the thirteenth century and the beginning of the fourteenth century, the story recounts the fictional founding of Venice after the invasion of Aquileia by Attila the Hun. The manuscripts, located in Zagreb and Venice, detail Attila's pagan mother, her union with a dog, and his feral birth, as well as his unusual death during a chess match and the origins of the Holy Grail. This edition and translation are based on the Zagreb manuscript, which was only recently discovered. The book includes a full critical apparatus containing rejected readings and variants from the Venetian manuscript, and a thorough introduction that discusses the literary value of the text, its possible sources, and its influence on later literature. It is important reading for both historians of medieval Europe and literary critics.

[The Wanderers' Journal - Diario dei Viaggiatori](#) Feb 29 2020 Structured as a journal, divided in twelve chapters, each one is dedicated to one month of the year. The voice of every chapter is different, first or third person is unintentional, but the reader can choose to perceive it as a yearlong story. Or not? This journal is for and by those who wandered and ...still do. Following Jhumpa Lahiri's example In Other Words, this book is ""bilingual"": a facing page translation helps either English or Italian readers,

ESL or ISL students, lovers of foreign languages and cultures, understand the different nuances of reading and writing in translation.

**Religious Narratives in Italian Literature after the Second**

**Vatican Council** Apr 24 2022 This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

Metalinguistic Communities Sep 05 2020 This edited volume brings together ten compelling ethnographic case studies from a range of global settings to explore how people build metalinguistic communities defined not by use of a language, but primarily by language ideologies and symbolic practices about the language. The authors examine themes of agency, belonging, negotiating hegemony, and combating cultural erasure and genocide in cultivating meaningful metalinguistic communities. Case studies include Spanish and Hebrew in the USA, Kurdish in Japan, Pataxó Hãhãhãe in Brazil, and Gallo in France. The afterword, by Wesley L. Leonard, provides theoretical and on-the-ground context as well as a forward-looking focus on metalinguistic futurities. This book will be of interest to interdisciplinary students and scholars in applied linguistics, linguistic anthropology and migration studies.

**Extinction Governance, Finance and Accounting** Jul 04 2020 The planet is currently experiencing a mass extinction event, with human and business activity being the root cause of

species loss and habitat destruction. Industries, companies, banks, investors, accountants and auditors have all played their role. This book explores how they can also provide a solution. The book presents plans, metrics, frameworks, mechanisms and financial innovations that can be, and are being, implemented through the financial markets in order to save and protect species, enhance biodiversity and, at the same time, preserve the financial markets and the business world. This biodiversity handbook addresses the intersection between species extinction and the global capitalist system. With contributions from leading non-governmental organisations such as the Capitals Coalition, Business for Nature, the Ecojustice Foundation, ShareAction and the Endangered Wildlife Trust, plus senior researchers in the field, as well as industry experts from Moody's, EOS at Hermes Federated Investment Management, BlueBay Asset Management, ODDO BHF Asset Management and OSSIAM (to mention just a few), this book is at the forefront of addressing the crucially important topics of extinction accounting, finance and governance. Drawing on leading research, the book is written in an accessible style and is relevant to researchers and students in the fields of sustainability, governance, accounting, finance, corporate social responsibility and corporate governance. It is essential reading for investors, responsible investors, bankers, business leaders and policy makers in the field of sustainable financial markets. Given the interdisciplinary nature of this book, it is useful to conservationists, ecologists and others involved in species and biodiversity protection.

**Ai bambini ci pensa Bin Laden** Mar 12 2021 Un piccolo paese italiano, nel settembre 2001. "Puoi arrivare a piedi ovunque in dieci minuti. Questo per dire quanto è piccolo". Un edicolante arabo. Uno stanzino segreto nella sua cartoleria. Tre bambini la cui vita viene cambiata dall'11 settembre, anche se "le Torri Gemelle sono a New York, mica qui in piazza". Ed una consapevolezza: "Brutta cosa stare in un paese in cui una religione ha la sua sede".

Atti casuali di violenza insensata Jan 10 2021 Come racconterebbe la propria discesa agli inferi una ragazzina di 12 anni? Così, come Lola in *Atti casuali di violenza insensata* la (de)scrive a Anne, il suo diario. Tutto comincia con fatti di ordinaria amministrazione: un padre che non trova a chi vendere le proprie sceneggiature e una madre traduttrice e insegnante che non riesce a lavorare se non a ritmi forsennati. Due sorelline in tenera età e una grande, grande città: New York. Eppure gli echi di una diffusa guerriglia urbana entrano di prepotenza all'interno del racconto che Lola scrive a Anne, il suo diario. Il presidente muore ammazzato, poi ne muore un secondo, la criminalità fa il paio con una fortissima crisi economica e sociale

serpeggia una violenza alla Arancia Meccanica. Anche le amichette della scuola (privata) voltano la faccia a Lola quando i genitori sono costretti a trasferirsi in un quartiere popolare per mancanza di denaro. Pian piano Lola si trova a giocare a fare la dura e a entrare in gang di quartiere al femminile. L'amore per Iz, ragazza nera spigliata e combattiva, la trascina sempre più a fondo e ogni sera il coprifuoco viene anticipato... Un mondo distopico come un romanzo di Philip K. Dick che, come nella migliore letteratura fantascientifica assomiglia moltissimo al nostro, funestato dalla crisi. Piccoli elementi sempre più determinanti dipingono una situazione di violenza che non risparmia i bambini, neppure quelli delle "buone famiglie".

Crea contenuti efficaci. Il mio metodo spiegato a tutti May 02 2020

**Compendio del Capitale** Apr 12 2021 Quando il primo volume del Capitale di Marx venne pubblicato, nel 1867, furono molti a rendersi conto della sua potenza dirompente a livello politico e teorico. Il tenore scientifico della trattazione e la complessità dei temi trattati, tuttavia, lo rendevano di difficile fruizione per un pubblico meno preparato. Il che, ovviamente, era un paradosso, dal momento che Marx intendeva gettare luce sullo sfruttamento del capitalismo ai danni proprio della classe lavoratrice e dei più deboli. Così, ai quattro angoli del mondo, numerosi estimatori di Marx si misero all'opera per sintetizzarlo e proporlo ai lettori in una forma più semplice. In Italia il primo a dedicarsi a questa impresa fu Carlo Cafiero. Nel Compendio del Capitale, Cafiero espone all'uomo della strada tutti i passaggi nodali del pensiero marxista con un linguaggio diretto e vitale, subito comprensibile: dal rapporto fra merce, moneta e Capitale, al tema del plusvalore, del salario, e dell'accumulazione. Si tratta di un libro

indispensabile per avvicinarsi al capolavoro di Marx con una preparazione adeguata. E si tratta, soprattutto, di un utilissimo strumento di formazione politica e di lotta.

**Narrating Migration** Aug 05 2020 This book reflects on the myriad ways in which forms of exclusion and inclusion play out in narratives of migration, focusing on the case of Northern Italian narratives in today's superdiverse Italy. Drawing on over a decade of the author's fieldwork in the region, the volume examines the emergence of racialized language in conversations about migrants or migration issues in light of increasing recent migratory flows in the European Union, couched in the broader context of changing socio-political forces such as anti-immigration policies and nativist discourse in political communication in Italy. The book highlights case studies from everyday discourse in both villages and cities and at different levels of society to explore these "intimacies of exclusion," the varying degrees to which inclusion and exclusion manifest themselves in conversation on migration. The book also employs a narrative practice-based approach which considers storytelling as a more dynamic form of discourse, thus allowing for equally new ways of analyzing their content and impact. Offering a valuable contribution to the growing literature on narratives of migration, this volume is key reading for graduate students and scholars in linguistic anthropology, sociolinguistics, sociocultural anthropology, language and politics, and migration studies.

*Adverbs and Functional Heads* Feb 08 2021 This text presents

evidence locating adverb phrases in the specifiers of distinct functional projections within a theory of the clause. In this theory, both adverbs and heads, which encode the functional notions of the clause, are ordered in a rigid sequence. The author's proposal suggests that the structure of natural language sentences is much richer than previously assumed.

*The Frontiers of Ancient Science* Dec 09 2020 Our understanding of science, mathematics, and medicine today can be deeply enriched by studying the historical roots of these areas of inquiry in the ancient Near East and Mediterranean. The fields of ancient science and mathematics have in recent years witnessed remarkable growth. The present volume brings together contributions from more than thirty of the most important scholars working in these fields in the United States and Europe in honor of the eminent historian of ancient science and medicine Heinrich von Staden, Professor Emeritus of Classics and History of Science at the Institute of Advanced Study and William Lampson Professor Emeritus of Classics and Comparative Literature at Yale University. The papers range widely from Mesopotamia to Ancient Greece and Rome, from the first millennium B.C. to the early medieval period, and from mathematics to philosophy, mechanics to medicine, representing both a wide diversity of national traditions and the cutting edge of the international scholarly community.
