Few cars in recent years have inspired such devotion among enthusiasts as the BMW M3. Now entering its fifth generation, BMW's compact performance car is recognized worldwide as the benchmark of its type. BMW M3 - The Complete Story looks in detail at the first four generations of the M3, which arrived in the mid-1980s as an E30 'homologation special', intended to keep BMW ahead of rivals Mercedes-Benz on the racetracks. But the M3 soon became very much more than that. Before long, buyers latched onto its exclusivity and turned it into a status symbol - and BMW was only too happy to exploit that. For all fans of the BMW M3, this book provides the essential background. It is packed with facts and details that make the M3 legend come alive. With over 250 photographs, the book covers: the original E30 M3 of 1986 - from a 'homologation special' to a status symbol; design and development of the E36 M3, including a new 6-cylinder engine and more body choices; the E46 M3 of 2000, with the developed 6-cylinder S54 engine and gearshift advances; racing success for the E90-series M3s, introduced in 2007 with V8 engines; driving, buying and special editions of all the models. Peut-on choisir qui doit vivre ou mourir ? Light Yagami, un brillant lycéen, découvre le mystérieux carnet d'un dieu de la Mort et son terrible pouvoir : tous ceux dont le nom y est inscrit sont condamnés à mourir ! Light, en bon justicier, se met en tête de débarrasser la société de tous les criminels et d'instaurer un nouvel ordre moral ! Mais L, un mystérieux enquêteur va se dresser sur sa route...! Un thriller psychologique implacable ! • A Lenten devotional written from an eco-feminist perspective • Deeply affirming of women and of our created world Rather than classical penitence, this book emphasizes intercession, solidarity, and preparation. Its aim is to help readers learn to view the world incarnationally and sacramentally. In rejecting one's own embodiment and the natural world, the earth is being irreparably harmed by our destructive actions. The book invites readers to move beyond sympathy for those in strife into action and advocacy on the behalf of the earth and its less powerful inhabitants. Photographs and poetry enhance the daily devotional readings. "A delicious, dark, adrenaline rush of a book. I'm already dying to see Charlie Hall's next con." - New York Times bestselling author, Alix E. Harrow #1 New York Times bestselling author Holly Black makes her stunning adult debut with Book of Night, a modern dark fantasy of betrayals, secret societies, and a dissolute thief of shadows, in the vein of Neil Gaiman and Erin Morgenstern. Charlie Hall has never found a lock she couldn't pick, a book she couldn't steal, or a bad decision she wouldn't make. She's spent half her life working for gloamists, magicians who manipulate shadows to peer into locked rooms, strangle people in their beds, or worse. Gloamists guard their secrets greedily, creating an underground economy of grimoires. And to rob their fellow magicians, they need Charlie Hall. Now, she's trying to distance herself from past mistakes, but getting out isn't easy. Bartending at a dive, she's still entirely too close to the corrupt underbelly of the Berkshires. Not to mention that her sister Posey is desperate for magic, and that Charlie's shadowless, and possibly soulless, boyfriend has been hiding things from her. When a terrible figure from her past returns, Charlie descends into a maelstrom of murder and lies. Determined to survive, she's up against a cast of doppelgangers, mercurial billionaires, gloamists, and the people she loves best in the world—all trying to steal a secret that will give them vast and terrible power. In this ambitious work of political and intellectual history, Charles Hartman surveys the major sources that survive as vestiges of the official dynastic historiography of the Chinese Song dynasty (960–1279). Analyzing the narratives that emerge from these sources as products of Song political discourse, Hartman offers a thorough introduction to the texts and the political circumstances surrounding their compilation. Distilling from these sources a 'grand allegory of Song history', he

argues that the narratives embedded within reflect tension between a Confucian model of political institutionalism and the Song court's preference for a non-sectarian, technocratic model. Fundamentally rethinking the corpus of texts that have formed the basis of our understanding of the Song and of imperial China more broadly, this far-reaching account of historiographical process and knowledge production illuminates the relationship between official history writing and political struggle in China.
