Dr. Jamison is one of the foremost authorities on manic-depressive (bipolar) illness; she has also experienced it firsthand. **A Shark! Named Jamison** Oct 23 2019 A Shark! Named Jamison is true story about the adventure and rescue of a juvenile great white shark on the coast of Cape Cod during the summer of 2015. A surprise landing for Jamison caused a surprise for the beach goers and unexpected rescue opportunity. Many of the researchers from the Atlantic White Shark Conservancy believe that the great white shark that washed up on a Chatham beach during the summer of 2015, and was tagged and named "Jamison," may have pulled through after his unexpected ordeal. The story, the rescue and the amazing community teamwork to ensure that Jamison's adventure ended with the shark's survival is still being admired around the world. In their new book, *A Shark! Named Jamison*, Consie and Nina Berghausen take on the challenge of creating a version of Jamison's true story and adventure written as a reader for ages 5-12 (K-6) and a great picture book for preschoolers. Their year-long effort to perfect both the text and illustrations of a colorful, fully illustrated book seems to have paid off. As the author, Consie gives the young readers an opportunity to go inside the mind of "Jamison" and imagine how a juvenile white shark could find himself in such a position. In the thirty-eight page book, she challenges the young reader to imagine what Jamison must have been thinking as he was the center of attention in the waters and on a beach in beautiful Cape Cod. Her distinctive sense of rhyme and her gentle treatment of a harrowing ordeal skillfully allow young readers to enjoy the suspense of a good story "gone badly" and then "good again." Nina's ascending brilliance as an illustrator and artist is displayed on every page of the book. The way she is able to seamlessly choreograph her mother's sense of rhyme within the true, natural colors and unbelievable beauty of the waters and beaches of Cape Cod is quite captivating. At the front of the book, parents will find a "Parents Corner" page with some tantalizing facts about sharks to share with the youngest readers and prepare them for Jamison's amazing adventure. By all accounts, the mother and daughter team also display amazing teamwork in their new book and has exceeded all expectations. This is the fourth Book written and illustrated by the team of Consie and Nina Berghausen. Consie splits her time between Tucson, Arizona and Chatham, Massachusetts. Her home in Chatham is on a saltwater marsh. It is her many years of watching wildlife out her back window that inspired her debut novel, *The Saltwater Marsh, a Magical Place*. She and Riverhaven books most recently teamed up to publish her next story set in Chatham, *The Cormorant and the Clam*. A teacher and former therapist, Consie now enjoys writing about nature and wildlife. She plays the piano and a mean game of tennis. Nina is a graphic design artist in California. She enjoys working at the public library, playing tennis, and horseback riding. She also has a heart for animals.

**Manic-Depressive Illness** Nov 04 2020 The revolution in psychiatry that began in earnest in the 1960s led to dramatic advances in the understanding and treatment of manic-depressive illness. Hailed as the most outstanding book in the biomedical sciences when it was originally published in 1990, *Manic-Depressive Illness* was the first to survey this massive body of evidence comprehensively and to assess its meaning for both clinician and scientist. It also vividly portrayed the experience of manic-depressive illness from the perspective of patients, their doctors, and researchers. Encompassing an understanding about the illness as Kraepelin conceived of it- about its cyclical course and about the essential unity of its bipolar and recurrent unipolar forms- the book has become the definitive work on the topic, revered by both specialists and nonspecialists alike. Now, in this magnificent second edition, Drs. Frederick Goodwin and Kay Redfield Jamison bring their unique contribution to mental health science into the 21st century. In collaboration with a team of other leading scientists, a collaboration designed to preserve the unified voice of the two authors, they exhaustively review the biological and genetic literature that has dominated the field in recent years and incorporate cutting-edge research conducted since publication of the first edition. They also update their surveys of psychological and epidemiological evidence, as well as that pertaining to diagnostic issues, course, and outcome, and they offer practical guidelines for differential diagnosis and clinical management. The medical treatment of manic and depressive episodes is described, strategies for preventing future episodes are given in detail, and psychotherapeutic issues common in this illness are considered. Special emphasis is given to fostering compliance with medication regimens and treating patients who abuse drugs and alcohol or who pose a risk of suicide. This book, unique in the way that it retains the distinct perspective of its authors while assuring the maximum in-depth coverage of a vastly expanded base of scientific knowledge, will be a valuable and necessary addition to the libraries of psychiatrists and other physicians, psychologists, clinical social workers, neuroscientists, pharmacologists, and the patients and families who live with manic-depressive illness.

**Exuberance** Aug 25 2022 A national bestselling author examines one of the mind's most exalted states—one that is crucially important to learning, risk-taking, social cohesiveness, and survival itself. “[Jamison is] that rare writer who can offer a kind of unified field theory of science and art.” —The Washington Post Book World With the same grace and breadth of learning she brought to her studies of the mind’s pathologies, Kay Redfield Jamison examines one of its most exalted states: exuberance. This “abounding, ebullient, effervescent emotion” manifests itself everywhere from child’s play to scientific breakthrough. *Exuberance: The Passion for Life* introduces us to such notably irrepressible types as Teddy Roosevelt, John Muir, and Richard Feynman, as well as Peter Pan, dancing porcupines, and Charles Schulz’s Snoopy. It explores whether exuberance can be inherited, parses its neurochemical grammar, and documents the methods people have used to stimulate it. The resulting book is an irresistible fusion of science and soul.

**The Recovering** Feb 19 2022 INSTANT NEW YORK TIMES BESTSELLER "An astounding triumph . . . Profound . . . Achingly wise . . . A recovery memoir like no other." --Entertainment Weekly (A) "Riveting . . . Beautifully told." --Boston Globe "An honest and important book . . . Vivid writing and required reading." --Stephen King "Perceptive and generous-hearted . . . Uncompromising . . . Jamison is a writer of exacting grace." --Washington Post From the New York Times bestselling author of *The Empathy Exams* comes this transformative work showing that sometimes the recovery is more gripping than the addiction. With its deeply personal and seamless blend of memoir, cultural history, literary criticism, and reportage, *The Recovering* turns our understanding of the traditional addiction narrative on its head, demonstrating that the story of recovery can be every bit as electrifying as the train wreck itself. Leslie Jamison deftly excavates the stories we tell about addiction--both her own and others'--and examines what we want these stories to do and what happens when they fail us. All the while, she offers a fascinating look at the larger history of the recovery movement, and at the complicated bearing that race and class have on our understanding of who is criminal and who is ill. At the heart of the book is Jamison's ongoing conversation with literary and artistic geniuses whose lives and works were shaped by alcoholism and substance dependence, including John Berryman, Jean Rhys, Billie Holiday, Raymond Carver, Denis Johnson, and David Foster Wallace, as well as brilliant lesser-known figures such as George Cain, lost to obscurity but newly illuminated here. Through its unvarnished relation of Jamison's own ordeals, *The Recovering* also becomes a book about a different kind of dependency: the way our desires can make us all, as she puts it, "broken spigots of need." It's about the particular loneliness of the human experience--the craving for love that both devours us and shapes who we are. For her striking language and piercing observations, Jamison has been compared to such iconic writers as Joan Didion and Susan Sontag, yet her utterly singular voice also offers something new. With enormous empathy and wisdom, Jamison has given us nothing less than the story of addiction and recovery in America writ large, a definitive and revelatory account that will resonate for years to come.

**The Jamison Letters** Apr 28 2020 Sometime during the 1990s my father, Wallace Jamison, a retired Navy chaplain, was commissioned by the State of Illinois to interview World War II prisoners of war and record their stories. It was feared that after these men passed away their stories would be lost. This prompted me to ask him to tell his story. His reply was “Read the letters”. He was referring to the letters he and Ruth wrote to each other while he was overseas during World War II. Although they are no longer alive their story will live on. This is their love story and so much more told in their own way. Life in New York City is contrasted to the life of those in war torn North Africa and Italy. Before he died Wallace asked me to read the letters and share them with my siblings. After reading the letters I realized that they had historical significance and should be shared with the public.

*The Gin Closet* Jul 24 2022 AS A YOUNG WOMAN, Tilly flees home for the hollow underworld of Nevada, looking for pure souls and finding nothing but bad habits. One day, after Tilly has spent nearly thirty years without a family, drinking herself to the brink of death, her niece Stella—who has been leading her own life of empty promise in New York City—arrives on the doorstep of Tilly’s desert trailer. *The Gin Closet* unravels the strange and powerful intimacy that forms between them. With an uncanny ear for dialogue and a witty, unflinching candor about sex, love, and power, Leslie Jamison reminds us that no matter how unexpected its turns, the life we’re given is all we have: the cruelties that unhinge us, the beauties that clarify us, the addictions that deform us, those fleeting possibilities of grace that fade as quickly as they come. *The Gin Closet* marks the debut of a stunning new talent in fiction.

*Make It Scream, Make It Burn* Apr 21 2022 From the "astounding" (*Entertainment Weekly*), "spectacularly evocative" (*The Atlantic*), and "brilliant" (*Los Angeles Times*) author of the New York Times bestsellers *The Recovering* and *The Empathy Exams* comes a return to the essay form in this expansive book. With the virtuosic synthesis of memoir, criticism, and journalism for which Leslie Jamison has been so widely acclaimed, the fourteen essays in *Make It Scream, Make It Burn* explore the oceanic depths of longing and the reverberations of obsession. Among Jamison's subjects are 52 Blue, deemed "the loneliest whale in the world"; the eerie past-life memories of children; the devoted citizens of an online world called *Second Life*; the haunted landscape of the Sri Lankan Civil War; and an entire museum dedicated to the relics of broken relationships. Jamison follows these examinations to more personal reckonings -- with elusive men and ruptured romances, with marriage and maternity -- in essays about eloping in Las Vegas, becoming a stepmother, and giving birth. Often compared to Joan Didion and Susan Sontag, and widely considered one of the defining voices of her generation, Jamison interrogates her own life with the same nuance and rigor she brings to her subjects. The result is a provocative reminder of the joy and sustenance that can be found in the unlikeliest of circumstances. Sample Book Insights: #1 Exuberance is an abounding, ebullient, and effervescent emotion. It is not happiness, but it is a more restless and billowing state. It is not a quiet sense of contentment, but rather exuberance that leaps, bubbles, and overflows. #2 Exuberance, the more energetic form of joy, is essential to our existence. It is a material part of our pursuits, and it is a vibrant force to signal victory, proclaim a time to quicken, to draw together, and to exult. #3 Exuberance is a wonderful thing, but it can also be calamitous. It is a defining quality of great teachers, statesmen, and adventurers. Used properly, it can bring about change and hope. #4 Roosevelt’s life in politics was abruptly broken when his wife and mother died in 1884. He threw himself into reform work, and became a gale force in Washington.

**Ode to East Texas** Apr 09 2021 In 2017, Huntsville artist Lee Jamison embarked on a trip with sketchbook in hand, recording his impressions and recollections of East Texas, a region he has called home for about 45 years. Having built a solid reputation as a respected Texas Regionalist painter, Jamison, with other collectors and observers of the Texas art scene, has become convinced that East Texas, while rich in natural beauty and historic interest, has typically been under-represented as a subject of serious artists. Landscapes and scenes of the Texas Hill Country and the Trans-Pecos abound in collections and galleries across the state, but East Texas, in Jamison’s view, has received short shrift. Seeking to remedy this lack of parity, the artist traveled the winding roads and tree-lined passages of East Texas for well over a year, observing, sketching, and journaling along the way. The result is an astonishing visual record of contemporary East Texas land, lore, and culture as viewed through the eyes of an accomplished painter. These fine works are further enriched by the artist’s poignant and insightful literary observations, providing backstories and personal accounts for each image. A thoughtful introduction by

historian Carolina Castillo Crimm provides the ideal entry into Jamison's loving treatment of the region's vistas and stories. Exhibiting an unshakeable awareness of place and a poet's sensibility, Lee Jamison's Ode to East Texas stands as an affectionate hymn to a familiar region, an invitation to a new appreciation of its qualities. Collectors, students, and aficionados of Texas art will be grateful for this fresh examination of a region too long overlooked.

**Social Movements** Dec 05 2020 This book offers a new approach to the study of social movements. Integrating American and European approaches, Eyerman and Jamison argue that social movements are forms of activity whereby individuals create new kinds of social identities not only for themselves but for the societies of which they form a part. They examine the success and failure of social movements in comparative terms, both between historical periods and political cultures, giving special attention to the American civil rights movement, environmental movements, and recent form of collective protest in Eastern Europe and the Soviet Union. The result is a study which develops major theoretical innovations as well as integrating a wide range of empirical material.

**Hoedowns, Reels, and Frolics** Jan 18 2022 In Hoedowns, Reels, and Frolics, old-time musician and flatfoot dancer Philip Jamison journeys into the past and surveys the present to tell the story behind the square dances, step dances, reels, and other forms of dance practiced in southern Appalachia. These distinctive folk dances, Jamison argues, are not the unaltered jigs and reels brought by early British settlers, but hybrids that developed over time by adopting and incorporating elements from other popular forms. He traces the forms from their European, African American, and Native American roots to the modern day. On the way he explores the powerful influence of black culture, showing how practices such as calling dances as well as specific kinds of steps combined with white European forms to create distinctly "American" dances. From cakewalks to clogging, and from the Shoo-fly Swing to the Virginia Reel, Hoedowns, Reels, and Frolics reinterprets an essential aspect of Appalachian culture.

*Robert Lowell, Setting the River on Fire* Feb 07 2021 A Pulitzer Prize Finalist In this magisterial study of the relationship between illness and art, the best-selling author of An Unquiet Mind brings a fresh perspective to the life and work of Pulitzer Prize-winning poet Robert Lowell. In his poetry, Lowell put his manic-depressive illness (now known as bipolar disorder) into the public domain, and in the process created a new and arresting language for madness. Here Dr. Kay Redfield Jamison brings her expertise in mood disorders to bear on Lowell's story, illuminating not only the relationships between mania, depression, and creativity but also how Lowell's illness and treatment influenced his work (and often became its subject). A bold, sympathetic account of a poet who was—both despite and because of mental illness—a passionate, original observer of the human condition.

*Night Falls Fast* Dec 17 2021 From the author of the best-selling memoir An Unquiet Mind, comes the first major book in a quarter century on suicide, and its terrible pull on the young in particular. Night Falls Fast is tragically timely: suicide has become one of the most common killers of Americans between the ages of fifteen and forty-five. An internationally acknowledged authority on depressive illnesses, Dr. Jamison has also known suicide firsthand: after years of struggling with manic-depression, she tried at age twenty-eight to kill herself. Weaving together a historical and scientific exploration of the subject with personal essays on individual suicides, she brings not only her remarkable compassion and literary skill but also all of her knowledge and research to bear on this devastating problem. This is a book that helps us to understand the suicidal mind, to recognize and come to the aid of those at risk, and to comprehend the profound effects on those left behind. It is critical reading for parents, educators, and anyone wanting to understand this tragic epidemic.

*All the Right Mistakes* Jun 23 2022 Five college friends have arrived at forty in very different circumstances, but with at least one thing in common: they are among the more privileged in society. Elizabeth and Sara are lawyers, Martha is a doctor, Carmen is a wealthy and well-educated homemaker, and Heather, the most successful, is a famous tech executive—and after more than two decades of friendship, they know one another better than anyone. Then Heather writes a women's advice book detailing the key life "mistakes" of her four friends—opting out, ramping off, giving half effort, and forgetting your fertility—that becomes wildly popular, and Elizabeth, Sara, Martha, and Carmen all feel the sting of Heather's cruel words. Despite their status, these women face everyday obstacles, including work problems, parenting challenges, secondary infertility, racism, sexism, financial stress, and marital woes—and as they weather their fortieth year, each one can't help but wonder if their life might have been different if they had followed Heather's advice. But as these friends are continually reminded, life is complex, messy, disappointing, and joyful, often all at once—and no one can plan her way out of that reality. In the end, all five women must embrace the idea that their lives are shaped not just by their choices but also by how they handle the obstacles life inevitably throws at us all.

Micah Jamison Didn't Do It Jun 30 2020 Micah Jamison Didn't Do It is the story of a man who is driven by frustration to threaten used-car salesman Joe Sanders. Jamison, after losing a suit in court to obtain relief over a car deal gone sour, decides to try to scare the car salesman into either refunding his money or paying for the repairs. As luck would have it, fate breaks in at a critical point in the execution of his plan and despoils Micah's intentions. The result is that through a most perverse alignment of circumstances, Sanders is killed. But that is only where the story begins. Imagine yourself in Micah Jamison's place--desperate, frustrated, and at the end of your rope, you adopt a risky plan. But in the midst of execution, the plan itself is wrecked by an unusually severe thunderstorm. Most of us have been on the short end of the stick a least once in our lives. Maybe we have even contemplated drastic measures to coerce someone into compliance with an outcome more satisfactory toward ourselves. We intend no real harm. Mostly, we are just trying to demonstrate our soul-felt unhappiness with the whole affair. But the unthinkable does happen. We cannot back up in time. What is cannot be undone. All the old courses of action are closed off to us. In short, there is a new reality with which we have to deal. What are we to do?

psychologists in America, “Kay Jamison is plainly among the few who have a profound understanding of the relationship that exists between art and madness” (William Styron). The anguished and volatile intensity associated with the artistic temperament was once thought to be a symptom of genius or eccentricity peculiar to artists, writers, and musicians. Her work, based on her study as a clinical psychologist and researcher in mood disorders, reveals that many artists subject to exalted highs and despairing lows were in fact engaged in a struggle with clinically identifiable manic-depressive illness. Jamison presents proof of the biological foundations of this disease and applies what is known about the illness to the lives and works of some of the world's greatest artists including Lord Byron, Vincent Van Gogh, and Virginia Woolf.
