Rhyme and Reason in Reading and Spelling Nov 22 2019 Nursery rhymes have been told to children for centuries. Many people think that they are just meant to make children smile. However, preschool children's awareness of rhyme and alliteration has an important influence on their success in learning to read and to spell. In *Rhyme and Reason in Reading and Spelling*, the authors explore this causal hypothesis using a new research design of combining longitudinal methods with intervention, and they provide strong evidence to show that there is a positive relationship between recognizing similar sounds, as found in nursery rhymes, and learning to read and to spell. The authors also investigate the relationship of this skill to children's learning difficulties. This is the first volume in the International Academy for Research in Learning Disabilities Monograph series.

Animals in International Law Feb 24 2020 Chapter I. Animals : a topic for international law --Chapter II. An overview of international rules on animals --Chapter III. The International Convention for the Regulation of Whaling : dead or alive? --Chapter IV. Farm animals in the law of the European Union --Chapter V. Animals in international trade law --Chapter VI. Animals in the law of armed conflict --Chapter VII. Towards international animal rights --Chapter VIII. Towards a global animal protection law.

Global South Scholars in the Western Academy Apr 27 2020 By foregrounding the voices and experiences of scholars from the Global South who have migrated to institutions in the Global North, this volume theorizes the "third space" as a unique, rich, and generative position in the Western academy. *Global South Scholars in the Western Academy* engages a range of critical methodologies to explore the challenges that Global South scholars have faced in establishing themselves in academic settings in the Global North. The text identifies the unique position that scholars have come to adopt "in-between" North and South and theorizes this positionality as a "third space", which is carved out by academics negotiating personal, professional, and cultural belonging. This liminal subject position, enriched by experiences of migration, racialization, poverty, and difference, is shown to drive knowledge-production and justice-orientated approaches in the academy. This book provides a new and overdue perspective on the experiences and contributions of Global South scholars in the academy. It will be of interest to academics, researchers, and scholars with an interest in critical theory, indigenous and multicultural education, the sociology of education, and higher education.

The Editor's Handbook May 21 2022 unknown

Complexity and Emergence Nov 03 2020 Complexity has become a central topic in certain sectors of theoretical physics and chemistry (for example, in connection with nonlinearity and deterministic chaos). Also, mathematical measurements of complexity and formal

characterizations of this notion have been proposed. The question of how complex systems can show properties that are different from those of their constituent parts has nurtured philosophical debates about emergence and reductionism, which are particularly important in the study of the relationship between physics, chemistry, biology and psychology. This book offers a good presentation of those topics through a truly interdisciplinary approach in which the philosophy of science and the specialized topics of certain sciences are put in a dialogue.

Bringing Innovative Practices to Your School Jun 22 2022

Exploring issues of student agency, equity, assessment, teaching, management, teacher leadership, and use of technology, this book provides strategies, tips, and guidance for enacting innovative change in today's schools. Drawing from unique and creative approaches at international schools, real practitioners share their stories and best-practices. Chapters contain engaging snapshots of the innovative practices currently happening in international schools, translate those practices into leadership actions, and show how those innovations are played out in localized contexts. This exciting book is for every school and district leader keen to think outside the box, reassess their schools' strengths, and improve the purposes and means by which they educate students.

Second Proceedings of the International Academy of Oral Pathology Dec 04 2020

Soccerland Aug 12 2021 Two years after her mother's death of cancer, fourteen-year-old Flora leaves the family's Maine farm for Colorado's International Sports Academy, where fierce competition could end their dream of Flora playing for U.S. Soccer.

General Reports of the XIXth Congress of the International Academy of Comparative Law Rappports Généraux du XIXème Congrès de

l'Académie Internationale de Droit Comparé Apr 20 2022 This book deals with convergences of legal doctrine despite jurisdictional, cultural, and political barriers, and of divergences due to such barriers, examining topics that are of vital importance to contemporary legal scholars. Written by leading scholars from more than twenty countries, its thirty-two chapters present a comparative analysis of cutting-edge legal topics of the 21st century. While each of the countries covered stands alone as a sovereign state, in a technologically advanced world their disparate systems nonetheless show comparable strategies in dealing with complex legal issues. The book is a critical addition to the library of any scholar hoping to keep abreast of the major trends in contemporary law. It covers a vast area of topics that are dealt with from a comparative point of view and represents the current state of law in each area.

Clinical Practice Guidelines We Can Trust Sep 20 2019 Advances in medical, biomedical and health services research have reduced the

level of uncertainty in clinical practice. Clinical practice guidelines (CPGs) complement this progress by establishing standards of care backed by strong scientific evidence. CPGs are statements that include recommendations intended to optimize patient care. These statements are informed by a systematic review of evidence and an assessment of the benefits and costs of alternative care options. *Clinical Practice Guidelines We Can Trust* examines the current state of clinical practice guidelines and how they can be improved to enhance healthcare quality and patient outcomes. Clinical practice guidelines now are ubiquitous in our healthcare system. The Guidelines International Network (GIN) database currently lists more than 3,700 guidelines from 39 countries. Developing guidelines presents a number of challenges including lack of transparent methodological practices, difficulty reconciling conflicting guidelines, and conflicts of interest. *Clinical Practice Guidelines We Can Trust* explores questions surrounding the quality of CPG development processes and the establishment of standards. It proposes eight standards for developing trustworthy clinical practice guidelines emphasizing transparency; management of conflict of interest ; systematic review--guideline development intersection; establishing evidence foundations for and rating strength of guideline recommendations; articulation of recommendations; external review; and updating. *Clinical Practice Guidelines We Can Trust* shows how clinical practice guidelines can enhance clinician and patient decision-making by translating complex scientific research findings into recommendations for clinical practice that are relevant to the individual patient encounter, instead of implementing a one size fits all approach to patient care. This book contains information directly related to the work of the Agency for Healthcare Research and Quality (AHRQ), as well as various Congressional staff and policymakers. It is a vital resource for medical specialty societies, disease advocacy groups, health professionals, private and international organizations that develop or use clinical practice guidelines, consumers, clinicians, and payers.

Small Satellites for Earth Observation Oct 14 2021

American Journal of Proctology Oct 26 2022

Matriarchal Societies Jan 17 2022 This book presents the results of Heide Goettner-Abendroth's pioneering research in the field of modern matriarchal studies, based on a new definition of matriarchy as true gender-egalitarian societies. Accordingly, matriarchal societies should not be regarded as mirror images of patriarchal ones, as they have never needed patriarchy's hierarchical structures of domination. On the contrary, matriarchal patterns are socially egalitarian, economically balanced, and politically based on consensus decisions. They have been created by women and are founded on maternal values. This new perspective on matriarchal societies is developed step by step by the analysis of extant indigenous cultures in Asia,

Africa, and the Americas.

Reproductive Medicine for Clinical Practice Jun 10 2021 This first volume of the series of the International Academy of Human Reproduction focuses on new aspects of reproductive medicine, from the professional responsibility model of ethics to the areas of high clinical involvement in human reproduction, such as endometriosis, polycystic ovary, family planning and post-coital contraception. The book discusses fertility and assisted reproductive techniques in the context of genetics and epigenetics as well as psychosomatic and longevity aspects. In addition, it presents new technologies and therapeutic strategies to improve IVF results and prevent ovarian hyperstimulation syndrome, as well the new challenges and the future of imaging in reproduction. Menopause and the effects of estrogens on athero-prevention, mood, and more generally the reproductive hormones impact on dementia and healthy aging are also covered. Further, it includes a section devoted to innovative aspects of gynecological surgery, discussing the treatments of vaginal aplasia, reproductive microsurgery and technological breakthroughs in pelvic organ prolapse surgery. Last, but not least, it examines the syndromic aspects of preterm birth. This volume is a useful and comprehensive tool for gynecologists, obstetricians, endocrinologists and all specialists who deal with women's reproductive health.

The Political Economy of Armed Conflict Sep 01 2020

Globalization, suggest the authors of this collection, is creating new opportunities - some legal, some illicit - for armed factions to pursue their agendas in civil war. Within this context, they analyze the key dynamics of war economies and the challenges posed for conflict resolution and sustainable peace. Thematic chapters consider key issues in the political economy of internal wars, as well as how differing types of resource dependency influence the scope, character, and duration of conflicts. Case studies of Burma, Colombia, Kosovo, Papua New Guinea, and Sri Lanka illustrate a range of ways in which belligerents make use of global markets and the transnational flow of resources. An underlying theme is the opportunities available to the international community to alter the economic incentive structure that inadvertently supports armed conflict.

International Academy of Indian Culture Jul 11 2021

General Reports of the XVIIIth Congress of the International Academy of Comparative Law/Rapports Généraux du XVIIIème Congrès de l'Académie Internationale de Droit Comparé Dec 16 2021 This title presents twenty-nine topics, prepared by leading scholars in more than 20 countries, providing a comparative analysis of cutting-edge legal topics of the 21st century. Considering topics of vital moment to contemporary legal scholars, the title includes pieces on Surrogate Motherhood, The Balance of Copyright in Comparative Perspective, International Law in Domestic Systems, Constitutional Courts as "Positive Legislators," Same-sex Marriage, Climate Change and the Law, The Regulation of Private Equity, Hedge Funds, and State Funds, and Regulation of Corporate Tax Evasion. Each chapter surveys legal developments in the U.S. and Canada, Europe, Asia, Latin and South America, Africa, and the Middle East in a format that

permits the reader easy access to similarities and differences in the approaches of the selected national regimes. This comprehensive volume tells the story of parallel trends in the evolution of legal doctrine despite jurisdictional, cultural, and political barriers. While each of the covered countries stands alone as a sovereign, in a technologically advanced world their disparate systems nonetheless have converged to adopt comparable strategies in dealing with complex legal issues. The volume is a critical addition to the library of any scholar hoping to keep abreast of the major trends in contemporary law.

TOEFL iBT Feb 06 2021 Barron's newest edition of TOEFL iBT has been fully updated to reflect the new TOEFL format and provides flexible study options and key skills review to help you study what you need to know for the test. You'll also get 8 full-length practice tests, 8 one-hour practice tests, four video lessons, online PowerPoint presentations, and online audio files for all the practice to help you feel prepared on test day. This edition includes: Eight full-length TOEFL iBT practice tests with answer explanations in both the book and online 8 one-hour practice tests A review of required academic and language skills with four video lessons and a grammar review that supports the Speaking and Writing Sections An online pronunciation guide that features over 200 campus flashcards with vocabulary terms and example sentences MP3 audio files online for all prompts A general overview of the TOEFL iBT PowerPoint review presentations with handouts and resources for tutors and teachers

General Reports of the XIXth Congress of the International Academy of Comparative Law Rapports Généraux du XIXème Congrès de l'Académie Internationale de Droit Comparé Mar 07 2021 This book deals with convergences of legal doctrine despite jurisdictional, cultural, and political barriers, and of divergences due to such barriers, examining topics that are of vital importance to contemporary legal scholars. Written by leading scholars from more than twenty countries, its thirty-two chapters present a comparative analysis of cutting-edge legal topics of the 21st century. While each of the countries covered stands alone as a sovereign state, in a technologically advanced world their disparate systems nonetheless show comparable strategies in dealing with complex legal issues. The book is a critical addition to the library of any scholar hoping to keep abreast of the major trends in contemporary law. It covers a vast area of topics that are dealt with from a comparative point of view and represents the current state of law in each area.

The Educational Entrepreneur Dec 24 2019 The authors describe educators who have entered the corporate world to market and develop products for the education marketplace, creating businesses for learning, including educational software, teaching tools, and special needs child care.

Human Spaceflight and Exploration Apr 08 2021 The book presents a unique overview of activities in human spaceflight and exploration and a discussion of future development possibilities. It provides an introduction for the general public interested in space and would also be suitable for students at university. The book includes the

basics of the space environment and the effects of space travel on the human body. It leads through the challenges of designing life support systems for spacecraft as well as space suits to protect astronauts during extravehicular activities. Research being carried out by humans in Earth orbit is being brought into context to other forms of space exploration. Between the end of 2007 and May 2009 ESA, the European Space Agency, carried out an astronaut recruitment process. It was the first time that astronauts had been recruited newly to the corps since its creation in 1998 and the positions were open to citizens of all of the member states of ESA. Two of the contributors to this book participated in the selection process and hence contribute to a general discussion of how one carries out such a selection programme. The book concludes with one person's experience of flying aboard the space shuttle on a mission to map planet Earth, bringing together topics taken up in earlier parts of the book.

From Adam to Us Jul 23 2022

Managerial Issues in International Business Jan 05 2021 The 13th volume of the Academy of International Business series reflects the complex challenges managers face in today's global economy. A novel range of issues brings together two important contemporary themes in international business. The book includes thoughts from prominent academics on new directions for international business scholarship.

Gua sha - E-Book Mar 27 2020 'Sometimes called coining, spooning or scraping, Gua sha is defined as instrument-assisted unidirectional press-stroking of a lubricated area of the body surface that intentionally creates 'transitory therapeutic petechiae' representing extravasation of blood in the subcutis.' Gua sha has been used for centuries in Asia, in Asian immigrant communities and by acupuncturists and practitioners of traditional East Asian medicine worldwide. With the expansion of traditional East Asian medicine, Gua sha has been used over broad geographic areas and by millions of people. It is valuable in the treatment of pain and for functional problems with impaired movement, the prevention and treatment of acute infectious illness, upper respiratory and digestive problems, and many acute or chronic disorders. Research has demonstrated Gua sha radically increases surface microperfusion that stimulates immune and anti-inflammatory responses that persist for days after treatment. The second edition expands on the history of Gua sha and similar techniques used in early Western Medicine, detailing traditional theory, purpose and application and illuminated by science that focuses its relevance to modern clinical practice as well as scholarly inquiry. This book brings the technique alive for practitioners, with clear discussion of how to do it - including correct technique, appropriate application, individualization of treatment - and when to use it, with over 50 case examples, and superb color photographs and line drawings that demonstrate the technique. NEW TO THIS EDITION • New chapter on immediate and significant Tongue changes as a direct result of Gua sha • Research and biomechanisms • Literature review from Chinese language as well as English language medical journal database • New case studies • Over 30 color photographs

The International Academy of Cytology Yokohama System for Reporting Breast Fine Needle Aspiration Biopsy Cytopathology

Nov 27 2022

Bilharziasis Jan 25 2020 During the past decade there has been an increasing awareness of the need for a different approach to the problem of bilharziasis. We do know that 180-200 million people are infected and that the infection is increasing but we have not as yet been able to answer the question: Are they suffering from a disease. Study of vital statistics or hospital records, mass biochemical or immunological tests and community surveys have not yet provided the full answer. Gradually and perhaps begrudgingly, we have come to realize that we must study the ma- initially by means of well controlled clinical observations to obtain evidence for the altered physiology, if any, due to bilharzial infection; secondly and equally important through pathological studies on individual patients to determine the structural changes, if any, as a result of infection with this parasite; and by post mortem studies. Experimental studies of bilharzial infection in animals, valuable as they may be for the elucidation of the pathogenesis of the lesions in the laboratory animal and in man cannot serve as a substitute for the precise information on the nature of the possible lesions induced by bilharziasis in man. Basically, the significance of any clinical observation can 'be evaluated only through reliable pathological confirmation.

Bridging the Theory-Practice Divide in International Relations

Oct 22 2019 There is a widening divide between the data, tools, and knowledge that international relations scholars produce and what policy practitioners find relevant for their work. In this first-of-its-kind conversation, leading academics and practitioners reflect on the nature and size of the theory-practice divide. They find the gap varies by issue area and over time. The essays in this volume use data gathered by the Teaching, Research, and International Policy (TRIP) Project over a fifteen-year period. As a whole, the volume analyzes the structural factors that affect the academy's ability to influence policy across issue areas and the professional incentives that affect scholars' willingness to attempt to do so. Individual chapters explore these questions in the areas of trade, finance, human rights, development, environment, nuclear weapons and strategy, interstate war, and intrastate conflict. Each substantive chapter is followed by a response from a policy practitioner, providing their perspective on the gap and the possibility for academic work to have an impact. Bridging the Theory-Practice Divide in International Relations provides concrete answers and guidance about how and when scholarship can be policy relevant.

Buddhist Literature of the Manchus May 29 2020

The International Academy of Cytology Yokohama System for Reporting Breast Fine Needle Aspiration Biopsy Cytopathology Sep 25

2022 This text describes a system of reporting breast fine needle aspiration biopsy that uses five clearly defined categories, each described by a specific term and each with a specific risk of malignancy. The five categories are insufficient/inadequate, benign, atypical, suspicious of malignancy and malignant. Each category has a

risk of malignancy and is linked to management recommendations, which include several options because it is recognized that diagnostic infrastructure, such as the availability of core needle biopsy and ultrasound guidance, vary between developed and low and middle income countries. This text includes key diagnostic cytological criteria for each of the many lesions and tumors found in the breast. The cytopathology of specific lesions is illustrated with high quality photomicrographs with clear figure descriptions. Chapters also discuss current and potential future ancillary tests, liquid based cytology, nipple cytology and management. An additional chapter provides an overview of an approach to the diagnosis of direct smears of breast fine needle aspiration biopsies. The International Academy of Cytology Yokohama System for Reporting Breast Fine Needle Aspiration Biopsy Cytopathology provides a clear logical approach to the diagnosis and categorization of breast lesions by FNAB cytology, and aims to facilitate communication with breast clinicians, further research into breast cytopathology and related molecular pathology, and improve patient care.

General Reports of the XVIIIth Congress of the International Academy of Comparative Law/Rapports Généraux du XVIIIème Congrès de l'Académie Internationale de Droit Comparé Mar 19

2022 This title presents twenty-nine topics, prepared by leading scholars in more than 20 countries, providing a comparative analysis of cutting-edge legal topics of the 21st century. Considering topics of vital moment to contemporary legal scholars, the title includes pieces on Surrogate Motherhood, The Balance of Copyright in Comparative Perspective, International Law in Domestic Systems, Constitutional Courts as "Positive Legislators," Same-sex Marriage, Climate Change and the Law, The Regulation of Private Equity, Hedge Funds, and State Funds, and Regulation of Corporate Tax Evasion. Each chapter surveys legal developments in the U.S. and Canada, Europe, Asia, Latin and South America, Africa, and the Middle East in a format that permits the reader easy access to similarities and differences in the approaches of the selected national regimes. This comprehensive volume tells the story of parallel trends in the evolution of legal doctrine despite jurisdictional, cultural, and political barriers. While each of the covered countries stands alone as a sovereign, in a technologically advanced world their disparate systems nonetheless have converged to adopt comparable strategies in dealing with complex legal issues. The volume is a critical addition to the library of any scholar hoping to keep abreast of the major trends in contemporary law.

Faceless Dec 28 2022 When Maisie is struck by lightning, her face is partially destroyed. She's lucky enough to get a face transplant, but how do you live your life when you can't even recognize yourself any more? She was a runner, a girlfriend, a good student ... a normal girl. Now, after a single freak accident, all that has changed. As Maisie discovers how much her looks did and didn't shape her relationship to the world, she has to redefine her own identity, and figure out what 'lucky' really means.

Tourism Alternatives Jun 29 2020 Tourism over the past three

decades has grown phenomenally but is continually modified by ongoing events and forces--such as increasing or abating pollution and congestion issues, new forms of transportation, and altered economic, social, or political conditions. The contributions in this work are of great importance to the advancement of knowledge of tourism, and, as a first theoretical book in the area, it establishes a significant benchmark for subsequent tourism research. The volume includes contributions by tourism specialists from Australia, France, Canada, the Netherlands, New Zealand, the United Kingdom, and the United States: Richard Butler, Professor of Geography, University of Western Ontario, London, Ontario, Canada; Graham Dann, Senior Lecturer in Sociology, University of West Indies, Bridgetown, Barbados; Emanuel de Kadt, Director, Institute of Development Studies, University of Sussex, Brighton, Sussex, United Kingdom; Bryan Farrell, Professor of Geography, University of California, Santa Cruz; Nelson H. Graburn, Professor of Anthropology, University of California, Berkeley; Martinus J. Kusters, Director of the Netherlands Institute for Tourism and Transport, Breda; Marie-Françoise Lanfant, Director of Research, Centre Nationale de la Recherche Scientifique, Paris; Dennison Nash, Professor of Anthropology, University of Connecticut; Douglas G. Pearce, Professor of Geography, University of Canterbury, Christchurch, New Zealand; John Pigram, Associate Professor of Geography and Planning and Executive Director, Center for Water Policy Research, University of New England, Armidale NSW, Australia; and Geoffrey Wall, Professor of Geography, University of Waterloo, Waterloo, Ontario, Canada. *Tourism Alternatives* is a provocative and important book that will be of interest to tourism planners at all levels of government and private enterprise, and to scholars and students in the fields of tourism and resort development.

General Reports of the XXth General Congress of the International Academy of Comparative Law - Rapports généraux du XXème Congrès général de l'Académie internationale de droit comparé Feb 18 2022

This book explores convergences of legal doctrine despite jurisdictional, cultural and political barriers, as well as divergences due to such barriers, examining topics that are of vital importance to contemporary legal scholars. Written by leading experts from all continents, its 26 chapters present a comparative analysis of cutting-edge legal issues of the 21st century. While each of the countries covered stands alone as a sovereign state, in a technologically advanced world their disparate systems nonetheless show comparable strategies in dealing with complex legal issues. Several of the chapters show how, in addition to state normative production and state adjudication, a growing panoply of non-state instruments and non-state adjudication are becoming more and more central to the legal field. This book is a key addition to the library of any scholar wanting to keep abreast of the major trends in contemporary law. Representing the current state of law in a vast range of areas, it covers each topic from a comparative perspective. Cet ouvrage, en examinant des sujets d'une importance vitale pour les juristes contemporains, traite des convergences de la doctrine juridique malgré les barrières juridictionnelles, culturelles et politiques ainsi que des divergences

dues à ces barrières. Écrits par d'éminents universitaires de tous les continents, ses 26 chapitres présentent une analyse comparative de sujets juridiques majeurs du 21e siècle. Dans un monde technologiquement avancé, bien que chaque pays analysé dans cet ouvrage demeure autonome en tant qu'État souverain, l'ensemble des systèmes disparates présente néanmoins des stratégies comparables pour traiter des questions juridiques complexes. En outre, plusieurs chapitres montrent comment, en plus de la production normative et de la résolution des différends étatiques, la panoplie croissante de différents types d'instruments non étatiques et de résolution non étatique des différends devient de plus en plus centrale dans la sphère juridique. Cet ouvrage est un ajout essentiel à la bibliothèque de tout universitaire souhaitant se tenir au courant des principales tendances du droit contemporain. Il couvre un vaste domaine de sujets traités d'un point de vue comparatif et représente l'état actuel du droit dans chaque domaine.

CIRP Encyclopedia of Production Engineering Sep 13 2021 The CIRP Encyclopedia covers the state-of-art of advanced technologies, methods and models for production, production engineering and logistics. While the technological and operational aspects are in the focus, economical aspects are addressed too. The entries for a wide variety of terms were reviewed by the CIRP-Community, representing the highest standards in research. Thus, the content is not only evaluated internationally on a high scientific level but also reflects very recent developments.

Clinical Management of Infertility Aug 24 2022 This new volume in the Reproductive Medicine for Clinicians series focuses on the practical clinical impact of problems linked to infertility, discussing topics such as luteal support in ART cycles, ovulation induction using pulsatile administration of GnRH, how to deal with the metabolic changes in PCOS, treatment to restore fertility in endometriosis and how to improve implantation, which are common aspects of daily clinical practice. It also addresses significant novel areas like the biological clock in human reproduction, reproduction at advanced parental age and medical and social egg freezing, offering valuable insights for patients and their doctors. Further, the book covers various areas of growing importance, such as how to access the uterine cavity; the future of imaging in reproduction; non-invasive prenatal testing; ART and male infertility; as well as breast cancer and

fertility preservation. Last but not least, it examines the medical, ethical and legal aspects of a number of challenges for current and future reproductive medicine, including uterine transplantation and human genetic modification. Bringing together updates on some of the most important problems in reproductive medicine and also covering ethical and legal bases, this book offers an overview of potential treatments for infertility. As such, it is a valuable resource for gynecologists, obstetricians, endocrinologists and all specialists dealing with reproductive health.

A Transcivilizational Perspective on International Law May 09 2021 The twenty-first century will witness conflicts which may destabilize the international order. These conflicts are likely to arise between emerging Asian States such as China and India whose material power is growing, and the Western nations who wield significant ideational power. A West-centric international society will change to a multi-polar and multi-civilizational global society. This structural change includes, and further needs, changes of understandings and perceptions of the world, including of international law. The perspectives from which we see, understand, appreciate and assess international law must change. We need to interpret international law not only from a prevalent Statecentric international perspective and West-centric transnational perspective. Onuma argues that we must grasp international law from what he calls a trans-civilizational perspective as well. By adopting such three-layered perspectives, international law is shown to be functioning as a tool of politics yet constrained by cultural and civilizational factors. Such complex subjects as global history of international law, concepts of general and customary international law, and human rights could be appreciated in a more nuanced and subtle manner.

Leadership and America's Future in Space Aug 20 2019

The Reconnection Nov 15 2021 Why are prominent doctors and medical researchers all over the world interested in the extraordinary healings reported by the patients of Dr. Eric Pearl? What does it mean when these patients report the sudden disappearance of afflictions such as cancers, AIDS-related diseases, and cerebral palsy? And what does it mean when people who interact with Dr. Pearl report a sudden ability to access this healing energy not just for themselves, but for others, too? What is this phenomenon? Well, you might have to reconsider everything you've read up until now about conventional

healing. The "new" frequencies of healing described by Dr. Pearl transcend "technique" entirely and bring you to levels beyond those previously accessible to anyone, anywhere. This book takes you on Dr. Pearl's journey from the discovery of his ability to facilitate healings, to his well-deserved reputation as the instrument through which this process is being introduced to the world. But most important, The Reconnection reveals methods you can use to personally master these new healing energies.

U.S. National Reports to the XIVth Congress of the International Academy of Comparative Law Jul 31 2020

Peacekeeper's Handbook Oct 02 2020 Peacekeeper's Handbook is a ready reference for the planning and conduct of peacekeeping operations, both within the framework of the United Nations and in a regional or multinational setting. Topics covered include standing operating procedures, operational handling and techniques, logistics, and communications, along with preparation and preparedness and the role of civilian police in peacekeeping operations. Planning and procedures for medical services for international peacekeeping operations are also considered. This guidebook is comprised of 14 chapters and begins with an overview of the theoretical concept of international peacekeeping, followed by a discussion on the main organs of the United Nations, their functions in relation to international peace and security, and their powers and their responsibilities. The following chapters focus on the principles on which the policy on UN peacekeeping is based; the skill and technique requirements for the chief aspects of a peacekeeper's duties; and the organization and procedures for the logistics support of a UN operation at the level of UN Headquarters, Force Headquarters, and National Contingent. The organization and structure of the communications system within a UN Force are then described, along with the organization and procedure employed by the UN and its Forces/Missions to facilitate good public relations and an effective press information service. This text concludes by outlining the main principles and procedures in establishing a medical service. This handbook will be a valuable resource for diplomats, military officers, policymakers, academicians, students, and those interested in dispute settlement and conflict management.
