Praise for Wild Turkeys and Tallow Candles: "A fascinating book of essays that adds much to the historical literature of pioneer days In Ohio and the Middle West has been published under the title of 'Wild Turkeys and Tallow Candles.' It's author, Ellen Hayes, a former professor at Wellesley College, has put all of the charm of the days she describes into her book, and in a series of vivid pictures, has given us a first-hand knowledge of the hardship, the thrift, the courage and the devotion that characterized the old settlers of the days between 1800 and the War Between the States." - Richmond Times-Dispatch "Wild Turkeys and Tallow Candles which, immediately after its publication in 1920, won - and merited - emphatic praise from critics and reviewers throughout the United States. It is still popular with the reading public for its literary charm and vivid portrayal of pioneer life." - The Granville Times "People who like reminiscences of pioneer days will enjoy this pleasant, leisurely volume. Traditions and memories of Granville, Ohio, as frontier settlement and backwoods town, are here set down by one of the last of those who saw the tallow candle period and heard at first hand of the wild turkey period which preceded it. It is well worth while to preserve this material for its historical interest; and at the same time Miss Hayes has produced a pleasant story." - The New York Herald "Wild Turkeys and Tallow Candles will be read with relish for many years, not only on account of its charm but also for its historical value, since it is a true picture of pioneer life in central Ohio. The world is indebted to Ellen Hayes for those services and will not forget her." - The Granville Times A Handbook for Living in Turkey unravels the mysteries of being a foreign resident in a country whose language and culture can seem strange or confusing. From choosing where to live to navigating the Turkish education system, this book examines every aspect of daily life in Turkey and offers practical ideas for making it easier. Chapters contain helpful word lists and the appendices are a wealth of addresses and contact details. For whom and why are borders drawn? What are the symbolic projections of these physical realities? And what are the symbolic projections of these physical realities? Constituted by experience and memory, borders shape a "border image" in the minds and social memory of people beyond the lines of the state. In the case of the Turkey-Georgia border, the image of the border has often been constructed as an economic reality that creates "conditional permeabilities" rather than political emphases. This book puts forward the argument that participation in this economic life reshapes the relationship between the ethnic groups who live in the borderland as well as gender relations. By drawing on detailed ethnographic research at the Turkey-Georgia border, life at the border is explored in terms of family relations, work life, and intra- and inter-ethnic group relations. Using an intersectional approach, the book charts the perceptions and representations of how different ethnic and gendered groups experience interactions among themselves, with each other, and with the changing economic context. This book offers a rich, empirically based account of the intersectional and multidimensional forms of economic activity in border regions. It will be of interest to students, researchers, and policy makers alike working in geography, economics, ethnic studies, gender studies, international relations, and political studies. Did you ever wonder what it would be like to move from a typical job, place, and life to a small farm with daily routines that are anything but typical? This two-and-a-half-month journal of John Michael's new routine after becoming a framer will shed some light on that question. It might also help you imagine what a new normal might look like if you decide to pull the plug on the tried-and-true and find your own changed place in the world. As John Michael would say, "Why not?" Turkeys are an excellent source of succulent meat, rich eggs, and nutrient-dense manure, and raising them is a rewarding and profitable activity for many farmers. With helpful tips on acquiring organic certification, processing both meat and eggs, and marketing your products, you'll have all the information you need to successfully raise your own healthy and productive turkeys. Looks at the range, characteristics, and behavior of the wild turkey, and gives practical advice about hunting them An unforgettable story about the fascinating behavior of the most elusive of wild game birds. When Joe Hutto began his experiment in imprinting two dozen wild turkey--in the tradition of the great animal behaviorist, Konrad Lorenz--he had no idea that it would change his life. Told with skill and humor, and vibrating with the natural wonders of the Florida flatwoods, Illumination in the Flatwoods will amaze and enrich all who share this season with the wild turkey. Sam Melvin, an underachieving e-reporter from a small town, changes forever when he meets turkeys that won't stay dead. You can shoot 'em, chop 'em, burn 'em--they come back stronger. The undead plague of poultry spreads uncontrollably, rocking the whole country. As Sam tracks down the zombie turkeys and how to eradicate them, his editor, Lisa Kambacher, nags him to turn his stories and expenses in on time. During their years of working together, Lisa has mellowed from bitchy into an irascible pinchpenny. Lisa snipes at Sam for plebeian writing but uses her intelligence to pursue the lucrative carnivorous turkey story. Sam and Lisa ricochet across the landscape, tracking turkeys and fleeing the bloodthirsty hordes. Careening from shell-shocked grocery store owners fighting turkeys crawling out of refrigerators, to machine-gunning turkey farmers, to secret militia, Sam and Lisa doggedly report. Throughout the turkey apocalypse, they dare ravaged cities, plow knee deep in gore and corpses, and upload streams of zombie turkey video news to the world. With paranoid militias clashing with the federal government and unkillable turkeys, Sam and Lisa doubt their ability to survive. Sam and Lisa have no superpowers. If you have a heart condition or lack humor, you should not read *Zombie Turkeys*, no matter how much you want to find out what happens. Discusses turkeys, what they eat, where they sleep, and how they survive. Turkeys are All-American birds, predating the European settlers. Turkeys, though misnamed, are a historical part of America and American Culture. These birds are the largest land birds, the most hunted, and nearly were lost to extinction by the late 1930s. They have keen eyesight (in color), keen hearing, and their reflex/reaction time puts humans to shame. This ability to avoid and outsmart hunters, avoid detection with camouflage feathers, and successfully reproduce offspring comes with a price. They are one of the most alerted, alarmed, and anxious birds in the forest. They are nature's nervous birds, but they will leave and disappear from the scene before you barely get a second look at them. This travel diary covers territory in Syria and the rural Asian provinces of the Ottoman Empire, areas the author deems to be sadly unvisited by American tourists. The author made a special effort to avoid officials, rather spending time with average people, and he was sympathetic to them. He asserts that Christians are not especially oppressed by the government; rather both Muslims and Christians are misruled. The book was researched and written in the aftermath of the Russo-Turkish War and so the author includes discussion of the relative virtue of Russian rule as well as the impact of the war on the common people. Much of the account is taken up with describing the landscape and physical features of the territory rather than just cultural description and political commentary. The author includes a historical summary of the region and an analysis of the Muslim poor in separate sections at the end of the book. Although Mel and his family have lived in America for several years, they have never celebrated Thanksgiving, just the Jewish holidays. But this year, after Papa wins a live turkey at work and brings it home on the subway, Mama invites all their relatives to their Brooklyn tenement for dinner. There's just one thing--Mel has a soft spot for the turkey! When I Was a Turkey is a middle-grade adaptation of the remarkable true story of a naturalist who raised a flock of wild turkeys using imprinting. After a local farmer left a bowl of wild turkey eggs on Joe Hutto's front porch, his life was forever changed. Hutto incubated the eggs and waited for them to hatch. Deep in the wilds of Florida's Flatlands, Hutto spent each day living as a turkey mother, taking on the full-time job of raising sixteen turkey chicks. For two years, Hutto dutifully cared for his family, roosting with them, taking them foraging, and immersing himself in their world. In return, they taught him how to see the world through their eyes. Here is the remarkable true story of a man with a singular gift to connect with nature. A Christy Ottaviano Book The rise and fall of great empires - Hittite, Byzantine, Ottoman - has brought a mosaic of influences to bear on Turkish design. 'Living in Turkey' draws aside a veil of privacy to lead us into Turkey's carefully hidden interiors. We see houses that have evolved to suit local conditions and needs, from the earthen dwellings of Cappadocia to the stone masonry of Anatolia. In Istanbul, modern life is tinged with the colours of ancient cultures and past times. Old wooden buildings dream in huge gardens along the Bosphorus; angular modern apartments are softened by kilims and accessories; in every house are Turkish coffee-pots, handmade embroideries and coloured glass. Throughout, colour photography invites us to share in the enjoyment of these decorative marvels, bringing us closer to the design and architecture of this

entrancing culture. Hatching a sustainable life with heritage poultry Houdan. Nankin. Indian Runner. Narragansett. These may sound like exotic place names or unusual varieties of produce, but each actually refers to one of the many hundreds of lesser-known poultry breeds which tempt the livestock owner who's prepared to venture into less familiar territory. Providing an alternative to commercial breeds and hybrids, heritage breeds each boast their own unique characteristics and personality traits, and are a valuable (and entertaining) addition to a sustainable food system. Pure Poultry is the first book in nearly a hundred years to focus specifically on heritage breeds of chickens, turkeys and ducks and their role in a self-reliant lifestyle. This timely, beautifully illustrated resource includes: Detailed guidelines on everything from housing, breeding and day-to-day care, to processing, cooking and preserving Much-needed information on using heritage breeds for egg and meat production Tips, inspiration, recommended reading, and additional resources A unique planning worksheet that simplifies the process of starting out with poultry. Brimming with quiet humor, Pure Poultry is an immensely readable "how-to and why-to" based entirely on personal experience—including plenty of lessons learned the hard way. Pure Poultry shows how heritage-breed poultry can enhance and deepen anyone's quality of life, whether you have a farm, a small backyard, or a neighbor with space to share. In a multifaceted, panoramic study of the American wild turkey, a food historian sheds new light on the all-American bird and its significance as a holiday feast mainstay, tracing the history of the turkey, its natural history and life cycle, and its vast culinary possibilities, including more than one hundred historical and modern turkey recipes. A fascinating and extravagantly illustrated (color photographs many full- or double-page by Gary Griffen) natural history revealing in detail the wild turkey's life cycle, behavior, foods, habitat, and other aspects of its ecology. Williams, who draws upon studies he performed for his master's and d The intervention by the Turkish military in June 1997, its fourth since 1960, was the first to stop short of a direct takeover of the government. The confrontation with civil authority began in early 1997, when the National Security Council, dominated by the Turkish General Staff, declared reactionism Islamist activism-to be a greater threat to Turkish security than separatism -the insurrection headed by the Kurdish Workers' Party (PKK). The General Staff stepped up its campaign in February 1998 when it announced a series of demands outlining what was permissible and what was banned to protect the security of the state and the legacy of secularism as defined by Mustafa Kemal Atatürk, founder of the modern Turkish Republic in the 1920s. The restrictions banned some forms of religious education, mosque construction, and the wearing of Islamic clothing (the hijab or headscarf for women and girls, the turban for men). Morgan's humorous and resource-filled collection of essays centers on turkey hunting, wildlife behavior, and growing up in the small Louisiana town of Jackson in the mid-20th century. A mixed breed of a book, it's what you get when you cross the roguish, homespun charm of a master storyteller with the wisdom of a master hunter, turkey caller maker, inventor, naturalist, and teacher-philosopher. With humility and humor the late Kenny Morgan (1946-2011) uses the antics of his lovable, but uncivilized childhood mongrel dog, Buster, as allegory for human nature, with the gentle reminder that "how you act matters." Morgan offers a witty examination of simpler times, giving voice to characters and shenanigans of his colorful life, with relevance -- life lessons -- for our time. The book's format pairs lush images of wildlife and American landscapes with Morgan's thoughtful musings on 50+ years of pursuing the wild turkey--and the practice he's learned along the way to "live artfully." "My intent is to set standards by teaching the artistry of the hunt: practicing cleverness and integrity in the pursuit of wild things," he says. Indeed, the book brims with expert wild turkey-calling and -hunting technique. But its real beauty comes through Morgan's captivating observations of wildlife, told with vivid tales that ensnare hunters and non-hunters alike with fascinating insights, such as how animals communicate--even across species--to look out for one another. Even more, it's about applying principles learned in the wild to cultivate decency with choices we make on the paths of the everyday. Anyone who appreciates a story well-told and compelling art photographs, or someone looking for first-rate tips to call up and bag a gobbler, will find this book a valuable addition to their library, nightstand, or coffee table. America, Wild Turkeys & Mongrel Dogs is a celebration of the joy that is all around us. A child observes wild turkeys through the seasons. Includes facts about this classic American bird, as well as tips to help children make their own cut-paper collages and nature journal. Simultaneous. A reissue of TALKING TURKEYS by street poet Benjamin Zephaniah. Talking Turkeys is an unconventional collection of straight-talking poems about heroes, revolutions, racism, love and animal rights, among other subjects, that will entice many new readers to poetry. It is his very first ground-breaking children's poetry collection - playful, clever and provocative - this is performance poetry on the page at its very best. Benjamin Zephaniah was born in Birmingham and then spent some of his early years in Jamaica. He came to London when he was 22 and his first book of poetry for adults was published soon after. He appears regularly on radio and TV including a Desert Island Discs appearance, literary festivals, and has also taken part in plays and films. He is most well-known for his performance poetry with a political edge for both children and adults and gritty teenage fiction. His collections Talking Turkeys, Wicked World and Funky Chickens broke new ground in children's poetry. He is the only Rastafarian poet to be short-listed for the Chairs of Poetry for both Oxford and Cambridge University and has been listed in The Times' list of 50 greatest postwar writers. Benjamin now lives in Lincolnshire. If you want to be more productive in your professional and personal life, or wish you could motivate your colleagues to use their talents instead of waste them, then Fowl Wisdom is your instruction booklet to a better organization--and a better life. Utilizing more than thirty years experience dealing with a variety of organizations, Dr. Seahorn provides a quick, humorous look at why some groups and individuals soar like eagles while others are content to forage with the turkeys. Using critical questions, she guides you through the process of identifying how your group works and why they may be performing in a less than acceptable manner. By engaging in short, amusing learning discussions with your peers, you can reflect on alternative ways to build the capacity of each member, enabling the eagle in everyone to become more visible and robust. With the wit and insight of Fowl Wisdom, you can lead the way for change in your home, office, and even your neighborhood. Spend less time on ineffective meetings, engage in fewer stressful relationships, and live in a healthier environment today! Mr. and Mrs. Moose try to invite a turkey to their Thanksgiving feast. In Illumination in the Flatwoods, Joe Hutto unveiled the secret lives of wild turkeys to great critical acclaim, which resulted in the Emmy Award-winning PSB documentary My Life as a Turkey. Now Hutto has done it again. Touching the Wild is the enchanting story about one man who has lived with a herd of mule deer in the Rockies for almost seven years. Due to the intense curiosity of one groundbreaking deer, and the resulting introduction to an entire herd, Joe Hutto has been allowed unprecedented access and insight into the minds and behavior of this special animal. Spending every day embedded among the herd, he develops an uncanny connection with the deer, witnessing individual and group dynamics never before observed and recorded, unveiling just how much we have in common with these delicate beings. Each season brings joy as fawns are born, and heartache as hunters, predators, development, and a pollution all take their toll. The mule deer of the West are in trouble, and Hutto is their most fervent advocate. Touching the Wild is proof that we have so much to learn from wild animals about their world, ourselves, and the fragile planet we share. Full color photos throughout. "CHASING TURKEYS is by turns crazy, hilarious, and inspiring. You might be skeptical at first, but seduced by a page-turning narrative, you'll be rewarded by a story that is not only fun and funny but powerful and moving."-- Sy Montgomery, bestselling author of SOUL OF AN OCTOPUS As a teenager, Kenton Whitman lived for three months in the wilderness of northern Wisconsin, where he discovered a deep passion for life and nature. Fast forward twenty years (and one too many pints of ice cream), and Kenton realizes that he needs something new to define his life and restore the lost adventures of his youth. So he embarks upon an impossible quest--to catch a wild turkey with his bare hands, then release it back into the wild. Join Kenton in his training misadventures as he wrangles baby cows, experiences the folly of playing paint-ball with his wife, and learns lessons about hypothermia, wilderness survival, and never giving up. Culminating in a series of turkey chases set in one of the most brutal winters in Wisconsin's history, Kenton lopes through farmers' fields, forests, and ravines, only to find that the turkeys have led him to something more profound than his original goal--a new understanding of life's meaning, of humans' connection with nature, and of the importance of chasing after our dreams, however improbable they may be. Lois E. Scott has generated and collected pithy one-liners for the past 50 years, gems that her husband Fred refers to as LOISisms. These one-liners can cut through the froth to the heart of a topic with wisdom, common sense, and often humor. They may give comfort to a hurting person, or challenge a teenager as he or she struggles to deal with this world. With these gems, she has guided and instructed three sons and eleven grandchildren and their friends. She is now working on seven great-grandchildren. Friends and family have enjoyed and have been challenged by her kitchen bar stool ministry. Hopefully, these gems will give the reader a laugh or two, or as the Christian comedian Ken Davis would say, "Lighten up and live!" If you are a believer in Jesus Christ, these gems may provide some food for thought as you live your life and raise your children. If you have not yet come to a saving relationship with the living Christ, hopefully some of these gems will challenge you to contemplate your relationship with Him, and hence your future beyond this limited time you have on this earth. The star of the show has escaped! Karen's class has won a real, live turkey in a Thanksgiving contest! Of course they do not want to eat him. They will find him a good home. But in the meantime, they want him to star in the school's Thanksgiving assembly. The turkey has other plans, though. He wants to run away! Can Karen catch him in time for the show? When I Was a Turkey is a middle-grade adaptation of the remarkable true story of a naturalist who raised a flock of wild turkeys using imprinting. "An introduction to an animal's life on a farm for early readers. Find out what a turkey eats, where it lives, and what they are like on a farm"-- A turkey narrates this photo-illustrated book describing the body parts and behavior of turkeys on a farm. Includes photo glossary and labeled diagram.
