Las bibliotecas escolares cumplen un papel fundamental dentro del mundo de las bibliotecas, son el primer acercamiento que los niños y jóvenes tendrán con este tipo de institución. El contar con una biblioteca escolar atractiva y eficiente hará que esos niños y jóvenes se vuelvan usuarios frecuentes de las bibliotecas, les dará un aprendizaje para la vida que les será útil a lo largo de toda su historia. Por otro lado, son una pieza fundamental de apoyo al aprendizaje. (...) En este libro se encontrarán conceptos básicos de selección y políticas de desarrollo de colecciones que facilitarán la construcción de una colección balanceada que apoye el currículo de la escuela a la que pertenece la biblioteca. Dentro de este marco también se encontrarán diversos criterios de selección de libros infantiles, criterios para libros de ficción e informativos, criterios de acuerdo a la edad y criterios paratextuales, textuales y extratextuales. (...) La intención es que este texto apoye a docentes de la carrera de Bibliotecología, a los bibliotecólogos que no tienen experiencia en bibliotecas escolares y a los maestros que se desempeñan como bibliotecarios y no tienen formación bibliotecológica. The contributions in this volume constitute a selection of the papers presented at the 11th International Colloquium of the West-European (German-based) society for the history of linguistic ideas, the Studienkreis "Geschichte der Sprachwissenschaft". The central theme of the conference was the history of linguistic and grammatical praxis. While this topic served, for the first time, as the central theme of a conference in the history of linguistics, the various types of linguistic praxis - language teaching and language learning, description and codification of languages, diffusion of linguistic knowledge, language planning and language policies - constitute the first attestation of linguistic preoccupations worldwide. The twenty-seven contributions in this volume cover the history of grammatical and linguistic praxis from Antiquity to the present day. While most of the papers deal with Europe and the United States, some of them analyse linguistic activity in relation to languages in Africa, Asia or Australia. Focusing on Gregory's Trinitarian thought, his fascinating minor treatises are analysed in detail. Supporting studies deal with theological and philosophical concepts as well as with the context, e.g. his writings against Apolinarius. Table of contents First multi-year cumulation covers six years: 1965-70. Includes Part 1A: Books Lo scritto "La Biblioteca Lodovico Iacobilli del Seminario di Foligno" è opera di Don Dante Cesarini e di Enrico Bellani. L'Introduzione e le Appendici di questo

saggio sono di Don Dante Cesarini, il quale ha ritenuto di offrire, con una opportuna cernita, le informazioni critiche essenziali. Die Reihe 'Das Mittelalter. Perspektiven mediävistischer Forschung. Beihefte' bietet ein interdisziplinäres Forum für hochwertige, thematisch fokussierte Sammel- und Konferenzbände und mediävistische Monographien. Sie ergänzt die Zeitschrift 'Das Mittelalter. Perspektiven mediävistischer Forschung' des Mediävistenverbandes und richtet sich thematisch an alle im Verband vertretenen Disziplinen von der Byzantinistik und Latinistik über die neusprachlichen Philologien und die Geschichtswissenschaften bis hin zur Theologie. Kriterien für die Aufnahme in die Reihe sind wissenschaftliche Relevanz, methodische Solidität und innovative Fragestellungen. Der Internationalität der Forschung wird unter anderem auch dadurch Rechnung getragen, dass die Publikationen außer in Deutsch auch in Englisch erscheinen können. Leitlinie eines jeden Bandes ist die Interdisziplinarität im Sinne einer Überwindung der traditionellen Grenzen zwischen den Disziplinen wie auch nationaler Zuschnitte. Volume 40 The book takes its lead from academic Annamaria Pagliaro's experience straddling Australia and Italy over a thirty-year period. As both former colleagues and collaborators of Pagliaro, we editors intend to open a kaleidoscope of perspectives on the international research landscape in the fields of Italian and Anglophone studies, starting from Pagliaro's own contribution to the creation of relations between the two cultures in the period that saw her work transnationally as Director of the Monash University Prato Centre (2005-2008). During the late Byzantine period (1261-1453), a significant number of texts were translated from Latin, but also from Arabic and other languages, into Greek. Most of them are still unedited or available in editions that do not meet the modern academic criteria. Nowadays, these translations are attracting scholarly attention, as it is widely recognized that, besides their philological importance per se, they can shed light on the cultural interactions

between late Byzantines and their neighbours or predecessors. To address this desideratum, this volume focuses on the cultural context, the translators and the texts produced during the Palaeologan era, extending as well till the end of 15th c. in ex-Byzantine territories. By shedding light on the translation activity of late Byzantine scholars, this volume aims at revealing the cultural aspect of late Byzantine openness to its neighbours. The Story of the FAO Library - 65th Anniversary 1952-2017 is a journey through the events that led to what has become one of the world's finest collections of materials (both digital and print) on food, agriculture and international development. Today, the library is the depository of over one and a half million volumes, plus a collection of 400 rare books, 32 incunabula (books printed before 1501) and thousands of digital publications. Its origins lie in the International Institute of Agriculture (IIA), founded in Rome in 1905 by King Vittorio Emanuele III to defend and modernize agriculture, with the encouragement of David Lubin, an American citizen and passionate promoter of agricultural knowledge. Lubin committed to creating and developing the Institute's library, soon the reference point for research centres, governments and other agencies specialized in agricultural matters. In the aftermath of World War II, the legacy of the IIA and its unique library were closely safeguarded by FAO. FAO's library, which officially opened in 1952, was named after Lubin "in recognition of the foresight, leadership, and outstanding contribution ... to international co-operation in the field of agriculture." This publication unveils the library's precious collections, ranging from those inherited from the Marquise Raffaele Cappelli, second President of the IIA, to the atlases, periodicals, yearbooks and even an edition of Alexander von Humboldt's Cosmos from the Centre International de Sylviculture collection. The publication's text is accompanied by photographs and images taken from the archives, showing rare pieces ranging from the incunabula to exquisite hand-drawn illustrations. And what about today?

Already as of the 1970s, the library had embarked on digitalization, providing access to technologies and supporting libraries in some 90 developing countries via FAO's decentralized offices. As the book reveals, the Library continues to rise to the digital challenge, maintaining its pivotal role in knowledge dissemination. Consists of Bulletin of agricultural science and practice (formerly International review of the science and practice of agriculture), Bulletin of agricultural economics and sociology (formerly International review of agricultural economics), International bulletin of plant protection (except issues for 1929-30) and Crop report and statistics (except issues for 1927-28). All four parts are also issued separately. Las practicas de las bibliotecas universitarias argentinas del sector publico y privado, involucradas en el proceso de comunicacion academica, se estudian a partir de sus representaciones en los sitios web de bibliotecas, con el objeto de indagar acerca de las tensiones que se desarrollan dentro de dicho proceso y que posibilitan determinar como se aborda la imagen de la biblioteca, como se representa la produccion de conocimiento cientifico y como se establece el dialogo con los usuarios. El analisis de los elementos mencionados permite establecer un contraste entre el discurso del modelo de biblioteca universitaria (que se quiere ser?) su materializacion mediante las practicas de acceso a la produccion cientifica (que se ofrece?) y la relacion establecida entre la institucion biblioteca y la comunidad universitaria (como se comunica?)." L'opera costituisce un'analisi storica e contemporanea del ruolo sociale e culturale svolto fin dalle prime esperienze a livello nazionale dalla "biblioteca pubblica". Essa, fin dalle origini, ha rappresentato uno spazio aperto alla cittadinanza, costituito non solo da libri e scaffali ma anche dalla volontà di creare un servizio pubblico finalizzato alla creazione di nuovi rapporti sociali e umani. Nella nostra epoca, la biblioteca pubblica assume progressivamente un nuovo valore sociale trasformandosi in luogo d'incontro interculturale per le diverse comunità di migranti che vivono in

Europa. Nello studio si vuole evidenziare in particolare la funzione svolta dalla biblioteca pubblica in differenti contesti urbani e in diversi paesi europei, con un'attenzione maggiore nei confronti di due metropoli, Roma e Amburgo, nelle quali si sono realizzati progetti d'integrazione culturale e sociale a favore di cittadini migranti. In conclusione l'opera vuole porsi uno specifico interrogativo: si può sperare che anche attraverso le biblioteche pubbliche si possa costruire una nuova società plurale orientata a un orizzonte comune? A collection of four studies (three of which were given as the 1994 U. of Pennsylvania Rosenbach Lectures), each addressing how the forms that transmit text to readers or hearers constrain the production of meaning. Hans Jakob Plepp. Las bibliotecas públicas tienen un papel ideológico de favorecer las relaciones sociales y con una gran responsabilidad de contribuir a la formación y satisfacción de necesidades e intereses de la comunidad en la cual está inserta. Las tecnologías de la información han introducido cambios tan significativos que las bibliotecas no han podido permanecer ajenas a ellos. Estas han sido y son las motivadoras de cambios en las bibliotecas públicas, por lo que deben ejercer su papel educativo que ayude a otros a realizar ese cambio como lo son el personal bibliotecario. Las Bibliotecas Públicas permiten disponer de una gran cantidad de recursos de información, nuevas tecnologías de la información y de nuevas formas de comunicación, pero debe asumir su responsabilidad de su transformación en el personal bibliotecario. Por lo que a través de este libro haremos un análisis de las nuevas tecnologías de la información y su incidencia en las bibliotecas públicas y el impacto de éstas en el personal bibliotecario ante el advenimiento de las nuevas tecnologías y de la sociedad de la información; además de analizar los retos y necesidades a que se enfrentan las bibliotecas públicas y las funciones atribuidas al personal bibliotecario ante las nuevas tecnologías de la

Notre édition a été spécialement conçue pour votre tablette/liseuse et le texte a été relu et corrigé soigneusement. Romain Rolland (1866-1944), est un écrivain français, lauréat du Prix Nobel de littérature en 1915. Au-dessus de la mêlée est un texte sur la Première Guerre mondiale publié en 1914, c'est l'opiniâtreté de Rolland dans sa lutte contre la guerre. Son exigence de justice le poussa à rechercher la paix pendant et après la Première Guerre mondiale. Romain Rolland est l'homme de la fédération des esprits contre la barbarie et sans doute l'un des plus fervents soutiens de la Société des Nations. L'Europe, qui meurt quand ses citoyens s'y entre-déchirent, est pour Romain Rolland plus qu'un Lebensraum (espace vital), mais une cité de l'Exigence morale et spirituelle. Extrait: "Ô jeunesse héroïque du monde ! Avec quelle Joie prodigue elle verse son sang dans la terre affamée ! Quelles moissons de sacrifices fauchées sous le soleil de ce splendide été !... Vous tous, jeunes

hommes de toutes les nations, qu'un commun idéal met tragiquement aux prises, jeunes frères ennemis — Slaves qui courez à l'aide de votre race, Anglais qui combattez pour l'honneur et le droit, peuple belge intrépide, qui osas tenir tête au colosse germanique et défendis contre lui les Thermopyles de l'Occident, Allemands qui luttez pour défendre la pensée et la ville de Kant contre le torrent des cavaliers cosaques, et vous surtout, mes jeunes compagnons français, qui depuis des années me confiez vos rêves et qui m'avez envoyé, en partant pour le feu, vos sublimes adieux, vous en qui refléurit la lignée des héros de la Révolution — comme vous m'êtes chers, vous qui allez mourir !....." This unique volume, nearly 2000 pages in length and handsomely printed on Bible paper, is perhaps the most comprehensive scholarly work of our time on the translation and interpretation of the Bible. At its core are papers presented to an international symposium in Ljubljana in September 1996 to mark the publication of the new Slovenian version of the Bible, a landmark in Slovene identity and cultural life. In addition, its distinguished editor, Joze Krasovec, has commissioned a wide range of contributions devoted to translations of the Bible in many languages, including the Slavonic languages, Croatian, Czech, Hungarian, Polish and the Scandinavian languages. The 82 chapters in this work, mostly in English, are divided into three parts. Part I, on ancient translations and hermeneutics of the Bible, contains contributions by M.-E. Boismard, S.P. Brock, K.J. Cathcart, R.P. Gordon, L.J. Grech, M. Hengel, O. Keel, J. Lust, E. Tov and others, with a notable comprehensive bibliographic survey of oriental Bible translations from the first millennium by M. van Esbroeck. Part II, on Slavonic and other translations of the Bible, includes the first detailed study of the history of the Slavonic Bible, by Francis J. Thomson (over 300 pp.). Part III, with essays by such scholars as J.H. Charlesworth, D.J.A. Clines, J. Gnilka, M. G÷rg, N. Lohfink and A.C. Thiselton, concerns the interpretation of the Bible in translation, philosophy,

theology, art and music. In an appendix, a complete list of printed Bibles in languages throughout the world is presented for the first time.
