The History of al-Ṭabarī Vol. 28
Sep 18 2019 The initial years (126-145) of al-Manṣūr's reign presented several significant challenges to nascent 'Abbāsīd hegemony, and the resulting confrontations constitute the central focus of this section of Ṭabarī's *Tarikh*. After Abu Jafar succeeded his brother Abū Al-'abbās as caliph, the second of the 'Abbāsīd dynasty, he moved against his recalcitrant uncle, 'Abd Allāh ibn 'Alī, and against

the potential threat that he perceived in the person of the commander in Khurasan, Abu Muslim. Eliminating the latter and containing the former freed the caliph to address a series of other onslaughts and insurrections. Starting with the year 144, however, Ṭabarī turned to this volume's principal preoccupation, to which half of the book is devoted. Judging by the attention given to it, he clearly perceived the Hasanīd rebellions of Muhammad b. Abdallah (the Pure Soul) and of his brother Ibrahim to be the most substantial attack on Abbasīd authority to arise in the first years of that dynasty. Ṭabarī's description of the

prolonged search for Muhammad and Ibrahim and of the caliphal vengeance visited upon their father and family provides an extended prelude to the vivid battle and death scenes in Medina and Bakhamra. Yet, elaboration of these events does not eclipse mention of all other Abbasīd activity. To bridge the account of Muhammad's defeat and that of Ibrahim's uprising, Ṭabarī inserted a narrative interlude depicting the site selection and preliminary construction of al-Manṣūr's most celebrated achievement, the City of Peace, Baghdad.

Umar Al Farooq Aug 22 2022
History bends to the will of man when it is exercised with faith and steadfastness. Umar Al Farooq was one such man. He bent history to his will, leaving a legacy that successor generations have looked upon as a model to copy. He was one of the greatest of conquerors, a wise administrator, a just ruler, a monumental builder and a man of piety who loved God with the same intensity that other conquerors of his calibre have loved gold and wealth. . Umar shaped the historical edifice of Islam and whatever Islam became or did not

become in subsequent centuries is due primarily to the work of this historical figure. Indeed, Umar was the architect of Islamic civilization. Humankind has a tryst with destiny, to realize its own sublime nature, in the matrix of human affairs. When free will is abused, it reduces humans to the most wretched of creatures. No man understood this better than Umar and few since the Prophet carried this trust with as much wisdom, humility, determination, sensitivity, persistence and courage. Measured by any yardstick, Umar was one of the greatest figures in human history. In this fascinating biography, the well known

author Moin Qazi delves into the life and work of the great hero of Islamic history.

Umar bin Al Khattab - The Second Caliph of Islam

Jul 21 2022 "Umar bin Khattab is one of the great Companions of the Prophet and second Caliph of Islam. He was so firm in his practice of Islam that he usually could sense what was right or wrong before the Prophet had informed others of it. He used to say to this friends: if a mule stumbles near the Euphrates River, I fear being questioned by Allah as to why I had not paved the road for it. This book sheds light on the life and struggle of the greatest example of a just ruler. We should follow his

footsteps to maintain justice in every walk of our life." -- Back of book.

The History of al-Ṭabarī Vol. 13

Feb 22 2020 This volume deals with the aftermath of the decisive battle at al-Qādisiyyah described in the previous volume. First, the conquest of southern Iraq is consolidated; in rapid succession there follow the accounts of the battles at Burs and Bābil. Then in 16/637 the Muslim warriors make for the capital al-Mada'in, ancient Ctesiphon, which they conquer after a brief siege. The Persian king seeks refuge in Ḥulwān, leaving behind most of his riches, which are catalogued in great detail. In the same year the Muslim army deals the

withdrawing Persians another crushing blow at the battle of Jalūlā'. This volume is important in that it describes how the newly conquered territories are at first administered. As the climate of al-Mada'in is felt to be unwholesome, a new city is planned on the Tigris. This is al-Kūfah, which is destined to play an important role as the capital city of the fourth caliph, 'Alī. The planning of al-Kūfah is set forth in considerable detail, as is the building of its main features--the citadel and the great congregational mosque. After this interlude there follow accounts of the conquests of a string of towns in northern Mesopotamia, which bring the

Muslim fighters near the border with al-Jazirah. That region is conquered in 17/638. The history of its conquest is preceded by an account of the Byzantines' siege of the city of Ḥimṣ. Also in this year, 'Umar is recorded to have made a journey to Syria, from which he is driven back by a sudden outbreak of the plague, the so-called Plague of 'Amawās. The scene then shifts back to southwestern Iran, where a number of cities are taken one after another. The Persian general al-Hurmuzān is captured and sent to Medina. After this, the conquest of Egypt--said to have taken place in 20/641--is recorded.

The volume concludes with a lengthy account of the crucial battle at Nihawand of 21/642. Here the Persians receive a blow that breaks their resistance definitively. This volume abounds in sometimes very amusing anecdotes of man-to-man battles, acts of heroism, and bizarre, at times even miraculous events. The narrative style is fast-moving, and the recurrence of similar motifs in the historical expose lends them authenticity. Many of the stories in this volume may have begun as yarns spun around campfires. It is not difficult to visualize an early Islamic storyteller regaling his audience with accounts that ultimately found their way to

the file on conquest history collected by Sayf ibn 'Umar, al-Ṭabarī's main authority for this volume. A discounted price is available when purchasing the entire 39-volume History of al-Ṭabarī set. Contact SUNY Press for more information.

Umar Mukhtar Sep 23 2022 It was the peak of the Fascist movement led by Benito Mussolini; a period where Italy wanted to revive the glory of the Roman Empire and expand their power. Their next target: Libya. After successfully driving out the Ottoman Empire army, Italy colonised

Libya. But their victory was short lived. One man was standing in their way. A Quran teacher had risen up to become the leader of Libya's rebel freedom fighters. His name was Umar Mukhtar, and his fearless courage had him famed as the "Lion of the Desert". Desperate to conquer Libya, Mussolini gave one mission to General Rodolfo Graziani, his righthand man fearfully reputed as the "Slaughterer of Fezzan": Bring him Umar Mukhtar's head. The next few decades gave birth to the most cunning war the region has ever witnessed, as the Slaughterer of Fezzan went head to head with the Lion of the Desert. Will General Graziani ever succeed? Or will

Umar Mukhtar's fight for freedom end and be forgotten? This is the story of the lion that would not bow down to his hunters. This, is the legend of Umar Mukhtar, Lion of the Desert.

Umar is credited for establishing most of the major political institutions of the Muslim state and stabilizing the rapidly expanding Arab empire.

Khayyam Mar 17 2022

Rubaiyat of Khayyam

Khayyam Sep 11 2021 It is often said, quite appropriately, that Khayyam was the poet of fate. It would be a mistake,

however, to call him a fatalist, at least according to our common understanding of this word. Scholars seeking to categorize his Rubaiyat can themselves be grouped into two major schools of thought. The first claims that he was highly influenced by Islamic mysticism, particularly Sufism, and that his references to wine and lovers are allegorical representations of mystical wine and divine love. A second school of thought rejects this view, claiming that Khayyam's references to wine and lovers are very literal and sensual." **The Origins of the Islamic State** Apr 25 2020 **Carmen Astrologicum: The 'Umar Al-Tabari Translation**

Muhammad Jul 09 2021 There are over 1.6 billion Muslims in the world today. Yet, many people have little to no understanding about the founder of one of the world's largest and fastest growing religions. English speaking

people have very few reliable and authentic resources which provide an overview of Muhammad's life. This book is designed to fill that void and not only serve as an introduction to Islam but also to establish a foundation through which the reader may sift through the negative propaganda against the man and his message.

Umar Farooq (Goodword) May 19 2022 Umar Farooq(ra), the second Caliph of Islam, ruled

for about ten years over a total area of 2,251,030 square miles. His rule was exemplary, every decision and action of his being guided by the word of Allah, as enshrined in the Quran. It is difficult to imagine that any ruler who had a huge empire, like Umar Farooq's(ra), would live like a simple, common man. But that is exactly what he did. He wore clothes with many patches, slept on the floor, ate plain food and travelled to foreign lands with just one servant and a camel. Umar Farooq (ra) had a strong sense of duty and justice. Throughout his rule, everyone was treated equally and with justice, whether he was a Muslim or a non-Muslim. He

lived in the love and fear of Allah. In the history of the world, there was and still is no other ruler like him: he was unique. Javanese Gentry Sep 30 2020

"In my mind rose a misty picture of a little girl in a floral dress. As for her face: nothing. I could only hope that she had been pretty. I sat overcome. What a procession of developments in one day! Only that morning I had left Madiun; at midday I was wobbling on a buggy past an ocean of rice fields; tonight, suddenly, I had been renamed by my parents and handed a wife." Thus begins Sastrodarsono's life, returning to his village as a newly- appointed schoolteacher, and by virtue of that position, a member of the "priyayi" - functionary gentry

awesomely elevated above the peasantry of his origins. From those most traditional of Javanese institutions - change of name and a virtually imposed marriage-he moves on with his bride to found a line of modernizing generations active across the whole span of recent Indonesian history: the 20th century late-colonial period, Japanese occupation, war of independence and two decades of social disorder ending in the mid-1960s with the rise of Suharto's authoritarian New Order government. The ideal of gentrification threads through this saga, both in the implicit concerns of a variety of characters and in the hopes of wretched villagers for whom

the literacy necessary to approach that higher status is largely a forlorn dream.
