A Winner of People Magazine's Best Books for Fall 2019. New York Times bestselling authors Barry Lyga and Morgan Baden have teamed up for the first time to create a novel that's gripping, terrifying and more relevant every day. Cassie McKinney has always believed in the Hive. Social media used to be out of control, after all. People were torn apart by trolls and doxxers. Even hackers — like Cassie's dad — were powerless against it. But then the Hive came. A better way to sanction people for what they do online. Cause trouble, get too many "condemns," and a crowd can come after you, teach you a lesson in real life. It's safer, fairer and perfectly legal. Entering her senior year of high school, filled with grief over an unexpected loss, Cassie is primed to lash out. Egged on by new friends, she makes an edgy joke online. Cassie doubts anyone will notice. But the Hive notices everything. And as her viral comment whips an entire country into a frenzy, the Hive demands retribution. One

moment Cassie is anonymous; the next, she's infamous. And running for her life. With nowhere to turn, she must learn to rely on herself — and a group of Hive outcasts who may not be reliable — as she slowly uncovers the truth about the machine behind the Hive.

What happens in an e-learning course that is designed to foster group work and a sense of 'community'? How can we research e-learning practice in ways that will enhance the processes of learning and teaching? This book outlines approaches to networked e-learning course design that are underpinned by a belief that students learn best in these contexts when they are organised in groups and communities. As such, the book is one of the first to provide a detailed analysis of what goes on in e-learning groups and communities. But how do students react to working in e-learning groups and communities? What determines their willingness to adopt new forms of learning in order to participate in these new courses? What actually happens in an e-learning community, and what impact does this have on students and tutors? This book examines these key questions through a variety of research approaches aimed at exploring the experience of e-learners as they participate in successful e-groups and communities. It also offers ways in which learning outcomes may be achieved in these communities and outlines the specific skills that students would develop through e-learning. *E-learning Groups and Communities* is essential reading for teachers, trainers, managers, researchers and students involved in e-learning courses as well as people interested in improving the quality of the learning experience.

The case study section offers perspectives from seven different sizes and types of libraries whose librarians describe innovative and thought-provoking projects involving e-books. Read about perspectives on e-books from organizations as diverse as a commercial publisher and an association press. Learn about the viewpoint of a jobber. Find out about the e-book challenges facing librarians, such as the quest to control costs in the patron-

driven acquisitions (PDA) model, how to solve the dilemma of resource sharing with e-books, and how to manage PDA in the consortial environment. See what patron use of e-books reveals about reading habits and disciplinary differences. Finally, in the case study section, discover how to promote scholarly e-books, how to manage an e-reader checkout program, and how one library replaced most of its print collection with e-books. Wyland leads a double life. No one in House Staerleigh would suspect that the meek woman on whom they heap their disdain is a gatherer of secrets. Determined to uncover whether the House's upper echelon—including her own father—are engaging in illicit activities in a grasp for control of the House, Cianne has made an art of slipping into their homes to rifle through their private lives. Kila an Movis is an Enforcer. Gods-gifted with an extraordinary ability to piece together physical clues, he's entrusted with protecting the vulnerable from crime. But his habit of expressing his opinions a little too freely earned him a nine-year banishment to the wilds, and he's determined to be more circumspect upon his return to the trade city. When someone close to Cianne dies and Kila is called out to investigate the scene, her world and his collide once more. His long absence hasn't driven the memory of him from her heart, but the woman he encounters isn't the child he remembers. Unwilling to trust anyone else, Cianne enlists Kila's help. The deeper they dig, the more secrets they unearth about her father, the other House members, and her entire life—until Cianne discovers that House Staerleigh is built on a foundation of lies. The book ecosystem is radically changing, and libraries must change with it. This book tackles the controversial discussion about eBooks and explores librarian-driven solutions and visions for the future of libraries in the 21st century. *The eBook Revolution: A Primer for Librarians on the Front Lines* is exactly what its title promises: an essential resource for librarians facing the formidable task of coordinating the library-wide transition to eBooks

and fielding questions from patrons about eBooks on a daily basis. After an introduction that covers the basics of eBooks and current eBook technology, the author puts things into perspective, documenting the changes that have occurred over the past decade. She also delves into important eBook issues, identifying librarian-driven solutions and providing glimpses of what libraries in the near future will likely be like. The book examines perennially critical issues such as accessibility, resource sharing, and the digital divide within the context of eBook technology and provides a clear framework for discussing eBooks, thereby enabling readers to make informed decisions regarding their own organizations.

Who or what is Santa Claus? What is his relationship to Saint Nicholas, Kris Kringle, and other Christmas-time gift bearers? What is the message of Santa? This book traces the lineage of the "child's saint" back to the alleged historical bishop of Myra up to the jolly saint in red garb that graces our modern Christmases. The book paints a stark contrast to the Gospel message of forgiveness freely given. "This book gives a very interesting history of how the myth of St. Nicholas/Santa Clause compares with the gospel message of Jesus Christ. I was amazed at the similarities but truly wonder if the two confuses children or one is to overshadow the other in this commercial world." Doris Costagliola for BookIdeas.com
