***install project microsoft support project help learning support  
microsoft com project for the web and project online microsoft  
support get started with project for the web microsoft support get  
started with project power app microsoft support basic tasks in  
project microsoft support when to use microsoft project planner  
to do or the tasks app project to a screen microsoft support  
video welcome to roadmap microsoft support screen mirroring  
and projecting to your pc microsoft support create a new project  
microsoft support***

***web build a project add your project for the web tasks in a list or  
drag and connect task bars in a gantt chart start now share and  
assign share your project for the web project with others and  
assign tasks find out how support for project 2010 has ended  
learn how to upgrade to project online professional get the details  
featured topics web create a project on the project home page  
select new blank project select untitled project a pane will appear  
on the right where you can name your project name your project  
and press enter add tasks select add new task add a name and  
press enter assign tasks and choose what group to use for  
collaboration and sharing web step 1 sign in to download project  
go to office com and if you re not already signed in select sign in  
sign in with the account you associated with this version of  
project this account can be a microsoft account used with non  
subscription versions or work or school account used with  
subscription versions web project has a power app for working  
with online projects the sections below have steps to help get you  
started open a project in project power app projects that are only  
available to you in project power app will automatically open in***

***that tool when you open them from project home however you can also open the project power app first and then open web use roadmap to create a view of your organization s projects and drive them together to achieve your business goals connect directly to projects from multiple systems in your organization allowing each team to use the tools that fit their work style choose the most relevant items from each project to focus on key investments and deliverables change web click project project information go to the schedule from box and pick project start date or project finish date add the date to the start date or finish date box project management tip schedule from the finish date to figure out how late you can start a project and still meet your deadline web how to get project professional or project standard project help center join the conversation about microsoft project project online track projects portfolios and timesheets project online is a web based application that can work for small medium and large businesses web how we build out project for the web over time will be based on carefully tracking feature usage and customer feedback to ensure we are providing features that meet real customer needs as a user of project online you will want to know when project for the web is ready to provide the project management functionality you need to run your business web project supports four kinds of task links to show different relationships want to change the link type or remove the link completely change your view project starts you off with the tried and true gantt chart but you have dozens of other options for viewing your tasks and resources and how they re all connected web project to a screen microsoft support products devices what s new account billing more support project to a screen windows 10 press the windows key p and then choose a way to project pc screen only duplicate extend second screen only subscribe rss feeds need more help expand your skills explore training get new features first web here s how to mirror another screen or project to your pc windows 11 windows 10 select start settings system***

***projecting to this pc under add the wireless display optional feature to project to this pc select optional features next to add an optional feature select view features then enter wireless display***
