Before It's Too Late Mar 21 2022 Dr. Sarah Miller returns

to her hometown of Savannah, Georgia, to bury her beloved mother, only to find out that her father fails to recognize her. Repulsed by his behavior, she plans to return immediately to Chicago rather than stay for a few days with him. She changes her mind at the last minute and in doing so, thereconciliation of twenty-two years of estrangement begins. In a very short period of time, she learns that her father was in the first stage of Alzheimer's Disease, her mother's death was from poisoning, her husband of five years was filing for divorce, and her father's life was in grave danger. Armed with new information gained from her

mother's hidden scrapbook, she begins to see her father through different eyes than those of an angry fifteen-year-old girl. The family physician gives Sarah some sage advice; to get to know her father before it's too late. In doing so, she finds herself tracking her father to Charlotte, North Carolina, to rescue him from his abductors. Entangled in mystery, intrigue, humor and many sentimental moments, Sarah finally comes to grips with her disillusionment with life. In doing so, she finds the joy of living, loving, and meaning that had eluded her for so many years. Tackling such deep emotional topics as death, Alzheimer's Disease,

divorce, betrayal, resentment, and estrangement, author, Charles Bailey brings us to the root of human feelings and shows us that we, too, can rise above them, and experience love in the process.

Crucify That Thing Before It Kills You Sep 15 2021 Jesus clarified the requirements of every believer. He simply said, "If any man will come after me, let him deny himself, take up his cross, and follow me" (Matt. 16:24). Sounds simple enough...until you begin to break it down. In today's affluent society, most are not accustomed to denying themselves anything, even if they don't have the means to pay for it. Personal

responsibility is at an all-time low. When tragedy strikes, we look for someone or something to blame. Certainly not my fault. Jesus requires us to take up a cross. Well, that's easy enough...gold, silver, or platinum? But don't forget the cross is not jewelry to be worn; on the contrary, it is an instrument of death. Our death. Have an addiction that you are struggling with? Perhaps you have concluded that God made you to live as a homosexual. God's fault there. And that alcohol or drug addiction, well, it's a disease. Not my fault there either. So open the pages and take a look. Dare you. The hard truth for all is that the Bible, God's Word, is a mirror.

You and I must see ourselves, in light of His Scriptures, as He sees us. But read on. The Bible contains all the power and tools you and I need to obey Jesus' command. So take up your cross and follow Him!

End the IRS Before It Ends

Us Sep 03 2020 As the recent scandal shows, the IRS is big, bad, and out of control. Grover Norquist analyzes the problems within the agency and presents solutions to rein them in. The driving force behind the American Revolution was our forefathers' refusal to accept unfair taxation. Citizens rose up, won a war against impossible odds, and established the most unique government on the face of the earth, with taxes set at about 2 percent. How much has changed since 1776? The strength of Americans resolve is still unrivaled, and Grover Norquist, founder and

president of Americans for Tax Reform, knows that once liberty-loving Americans learn the truth behind the oppressive and prosperity-stifling taxes we face today, they'll rise up again. Urging his fellow citizens to join him, Norquist tells a powerful and urgent story that will convince you we must act now to END THE IRS BEFORE IT ENDS US.

Biology Of Enlightenment

May 31 2020 In this book we meet with the modern sage, U.G. Krishnamurti, and listen to his penetrating voice describing life and reality as it is. What is body and what is mind? Is there a soul? Is there a beyond, a God? What is enlightenment? Is there a life

after death? Never before have these questions been tackled with such simplicity, candour and clarity. In these unpublished early conversations with friends (1967-71), U.G. discusses in detail his search for the truth and how he underwent radical biological changes in 1967. Preferring to call it the natural state over enlightenment, he insists that whatever transformation he has undergone is within the structure of the human body and not in the mind at all. It is the natural state of being that sages like the Buddha, Jesus and, in modern times, Sri Ramana, stepped into. And U.G. never tires of pointing out

that 'this is the way you, stripped of the machinations of thought, are also functioning.' *Genesis, Exodus, Leviticus* Aug 22 2019

Education Reform: Before It Was Cool May 23 2022 In 1983, Americans, content with the failing education establishment and ill-equipped to change the status quo were handed a wake-up call in the form of *A Nation at Risk*. This national report exposed the problems in the system, and slowly, Americans began to see possibilities where there were none. Successes bloomed in cities desperate for change; states began to sign bills into laws. Parents and teachers were starting schools on their

own and gutsy governors and legislators began to put education reform at the top of their lists. The Center for Education Reform (CER) has led the charge for change since ideas for reform weren't more than dreams, and now, it seems, perseverance has paid off. Education reform is back in the national spotlight and CER remains the cornerstone of the movement. With the Center's vast experience in two decades of reform, *Education Reform: Before It was Cool* recounts successes, remembers the pioneers of education reform, and continues to press on for our nation's children as the destination for all Americans who seek something better for

our country's education.

God's wrath will soon destroy a once proud and envied nation. If you only knew how close it is to the end of the world, you may faint if you are not a born again believer. The signs of the end that Jesus Christ spoke of

are before our eyes like never before.

It's enough to make a torturer want to run -- if he could even walk without a stick. Northmen have spilled over the border of Angland and are spreading fire and death across the frozen country. Crown Prince Ladisla is poised to drive them back and win undying glory. There is

only one problem -- he commands the worst-armed, worst-trained, worst-led army in the world. And Bayaz, the First of the Magi, is leading a party of bold adventurers on a perilous mission through the ruins of the past. The most hated woman in the South, the most feared man in the North, and the most selfish boy in the Union make a strange alliance, but a deadly one. Oct 28 2022 Donna Rogers lives in Florida, with her husband Jimmy, daughter, Kristen, and son, Dylan. God gave her a prophetic word about the impending demise of the United States in 2004 and told her to warn as many people as possible to repent and turn back to God before it is too late for our nation. She has actively pursued corresponding with various

government officials and the majority of the Christian organizations to encourage them to join forces to help save our country based on the scripture, "Though one may be overpowered, two can defend themselves. A cord of three strands is not quickly broken" (Ecclesiastes 4:12). In addition, Donna is the Administrative Director for a local ministry that feeds and clothes the homeless and those less fortunate. The intent of her book is twofold. First, it is to help people realize that no matter what you experienced as a child, you can overcome your circumstances and soar to unimaginable new heights with the help of God. This is

critically important if you have children and have the desire to break the cycle of abuse and dysfunction. As a child Donna, was abandoned by both parents and suffered rejection, verbal, physical and sexual abuse. She candidly shares her testimony so parents can experience, through the eyes of a child, how the unwise choices and actions they make can profoundly affect their children for the majority of their lives. The cycle repeats itself until someone chooses a better way. Second, this book is a passionate plea to open your eyes to what has happened to our nation. We have the power to change where our nation is headed. We must unite and

take action now to stop the impending destruction of our nation before it is too late! Lord, Change My Attitude Jan 07 2021 Change your attitude, change your life. We're very good at explaining why we're unhappy: bad job, bad relationships, bad luck. But there's probably a better reason: bad attitudes. In Lord, Change My Attitude, James MacDonald shows us just how much our attitudes affect our lives. One of his bestsellers, this book is classic James: It's clear, it's inspiring, and it packs a punch. Drawing from the experience of the Israelites who grumbled through the wilderness, MacDonald shows how bad attitudes rob us of joy.

Coveting, complaining, and being critical are not what our hearts were made for. They were made for thankfulness, contentment, and love. Is your heart straining under the weight of a bad attitude? Don't read this book if you're looking for a quick fix. Don't read this book if you're unwilling to change. Read it if you're ready for a serious, inside-out attitude adjustment.

Nuclear Nightmares Feb 08 2021 There is a high risk that someone will use, by accident or design, one or more of the 17,000 nuclear weapons in the world today. Many thought such threats ended with the

Cold War or that current policies can prevent or contain nuclear disaster. They are dead wrong—these weapons, possessed by states large and small, stable and unstable, remain an ongoing nightmare. Joe Cirincione surveys the best thinking and worst fears of experts specializing in nuclear warfare and assesses the efforts to reduce or eliminate these nuclear dangers. His book offers hope: in the 1960s, twenty-three states had nuclear weapons and research programs; today, only ten states have weapons or are seeking them. More countries have abandoned nuclear weapon programs than have developed them, and global

arsenals are just one-quarter of what they were during the Cold War. Yet can these trends continue, or are we on the brink of a new arms race—or worse, nuclear war? A former member of President Obama's nuclear policy team, Cirincione helped shape the policies unveiled in Prague in 2009, and, as president of an organization intent on reducing nuclear threats, he operates at the center of debates on nuclear terrorism, new nuclear nations, and the risks of existing arsenals.

Address Delivered by Mr. James J. Hill Before the Farmers National Congress, Madison, Wisconsin, September 24, 1908 (Classic

Reprint) Oct 04 2020 Excerpt from Address Delivered by Mr. James J. Hill Before the Farmers National Congress, Madison, Wisconsin, September 24, 1908 What we are here for is to consider how to increase the farmer's successes, lessen his failures and place his work upon the most certain foundation. His occupation is the first to exist in a civilized state. It is the basis of all other industry. And only recently we are coming to realize that it is an exact science. The man no longer deserves the name of farmer who conceives of his industry as a scratching of the earth, a hit-or-miss scattering of seed and a harvesting of such yield

as soil and weather may permit. That is not farming, but a game of chance. This is, therefore, a gathering of representatives of a profession; and as such it is a first duty to consider the place of farm industry in the national economy, and to what extent it is prepared to meet present and future demands upon it. For grave national concerns, the state of civilizations, the condition of social life and the fate of institutions as well as the farmer's position and prosperity will depend upon his readiness to meet the work surely coming in the advancing years. After an army has been raised and before it can enter upon any campaign, the first

consideration is to provide its food. If that is a failure, the bravest and best organized force will melt away in a week. Altared Jan 27 2020 When Kyle Tackwell Ball's search for a quaint country home near Florence, Italy, in move-in condition somehow led to the purchase of an abandoned church in a small borgo near Greve-in-Chianti called Le Convertioie, she ended up with much more than a project to overcome her newly contracted "empty nest syndrome." Ball soon found herself starring in a "Stones and Bones Classic"; the ruin she'd purchased would require years of renovation and an endless amount of money before it would become habitable. But her journey had unexpected rewards, too: she

reconnected with some wonderful friends, made new ones, learned the language of her newly adopted home country, and became experienced in the Italian knack of getting around the system. Most importantly, she learned to appreciate Italian culture, food and wine, and how rewarding it is to give new life to a beautiful old building. Ball's renovation was featured in the March 2010 "Before & After" issue of Architectural Digest, beautifully documented by Kim Sargent of Sargent Architectural Photography.
