“Savvily combines literary themes and cross-stitch designs in [a] visually appealing collection of projects . . . delightful.” —Publishers Weekly Inside Book Riot’s Lit Stitch, you’ll find a number of badass, bookish cross-stitch patterns to let you show off your love of all things literary. Some are for bookmarks, others are for wall decor, and still others can take on a whole host of finished outcomes. What they have in common is their literary bent—the patterns speak to all manner of literary-minded book lovers, who are happy to display their nerdier sides. And what better way than through your own cross-stitch art to hang on your wall, prop on your desk, or even gift to friends and family? Most if not all are beginner-friendly and can be completed in a few hours—instant stitchification! So grab yourself some excellent embroidery floss, hoops, and needles, and pick out one or more of these great cross-stitch patterns for your next project. Pocket Ruth Bader Ginsburg Wisdom is an inspired collection of some of the most empowering and impactful quotes from the powerhouse associate justice of the US Supreme Court. After a quarter century serving on the highest court in America and fighting tirelessly for gender equality and civil rights, RBG has become one of the most influential legal figures in the history of the country. From her landmark cases working with the ACLU to her brilliantly meme-worthy moments of dissent, RBG is a true American trailblazer. Volume 75 of Reviews in Mineralogy and Geochemistry addresses a range of questions that were articulated in May 2008 at the First Deep Carbon Cycle Workshop in Washington, DC. At that meeting 110 scientists from a dozen countries set forth the state of knowledge about Earth’s carbon. They also debated the key opportunities and top objectives facing the community. Subsequent deep carbon meetings in Beijing, China (2010), Novosibirsk, Russia (2011), and Washington, DC (2012), as well as more than a dozen smaller workshops, expanded and refined the DCO’s decadal goals. The 20 chapters that follow elaborate on those opportunities and objectives. Presents illustrated content from the popular twitter feed of inane phrases attributed to girls. A Complete Illustrated Guide with Valuations large size notes, fractional currency, small size notes, encased postage stamps from the first year of paper money (1861) to the present confederate states notes, colonial and continental currency The standard reference work on paper money A comprehensive guide to carbon inside Earth - its quantities, movements, forms, origins, changes over time and impact on planetary processes. This title is also available as Open Access on Cambridge Core. Offers a collection of true facts about animals, food, science, pop culture, outer space, geography, and weather. This is a complete catalog of American paper money from its first use in 1861 to the present. Fourteen-year-old Roonie loves hip-hop almost as much as she loves her grandmother. She cannot wait to compete in her school’s dance competition. But as her grandmother’s health deteriorates, Roonie becomes more and more reluctant to visit her in the care home. These feelings of guilt and frustration cause Roonie to mess things up with her hip-hop dance partner and best friend, Kira. But while doing some volunteer hours in the hospital geriatric ward, Roonie meets an active senior recovering from a bad fall. Their shared love of dance and the woman’s zest for life help Roonie face her fears, make amends with Kira and reconnect with Gram before it’s too late. A checklist of New Brunswick government documents received at the Legislative Library, Fredericton, N.B. This is a study about perceptions of well-being. Its purpose is to investigate how these perceptions are organized in the minds of different groups of American adults, to find valid and efficient ways of measuring these perceptions, to suggest ways these measurement methods could be implemented to yield a series of social indicators, and to provide some initial readings on these indicators; i.e., some information about the levels of well-being perceived by Americans. The findings are based on data from more than five thousand Americans and include results from four separate representative samplings of the American population. One of the ways our research is unusual is that it includes a major methodological component. Typical surveys involve a modest effort at instrument development, the application of the instrument to a group of respondents, and an analysis of the resulting data that mainly describes the people studied. Our work, however, was implemented in a series of sequential cycles, each of which consisted of conceptual development, instrument design, data collection, analysis, and interpretation. Ideas and findings generated in prior cycles affected the design of subsequent cycles. The popular illustrated journal for all photographers devoted to the interests of photography and kindred arts and sciences. Volume 60 of Reviews in Mineralogy and Geochemistry assesses the current state of knowledge of lunar geoscience, given the data sets provided by missions of the 1990’s, and lists remaining key questions as well as new ones for future exploration to address. It documents how a planet or moon other than the world on which we live can be studied and understood in light of integrated suites of specific kinds of information. The Moon is the only body other than Earth for which we have material samples of known geologic context for study. This volume seeks to show how the different kinds of information gained about the Moon relate to each other and also to learn from this experience, thus allowing more efficient planning for the exploration of other worlds.
