Explanatory of their scientific principles, method of construction, and practical utility. "Over half a century has passed since I cut my teeth on an old .36 Navy Colt. For 40 years I have almost never been out of easy reach of a good sixgun. Thirty years I spent in the saddle, packing, punching cows and breaking saddle brones. The sixgun was worn just as regularly as my pants and many times was much more important to my

existence. It pulled me out of several tight scrapes with wild horses, wilder cattle and some big game. Though I have witnessed several gun fights, have had guns pulled on me and have been shot at several times, I have never had to use my gun on a man. Several times it was touch-and-go and perhaps only the current knowledge that I was both fast and accurate with a sixgun saved me from being embroiled. Though I do not recommend a sixgun for big game, thirty head of big game have fallen to mine, including elk, bear, deer, cougar, mountain goat and javelina. I have also trailed up a great many big game animals of various species that were wounded by sportsmen and then I finished them off. No record was kept of these or the many coyotes, bobcats and lesser game, or the livestock I have had to kill." This classic includes the following chapters: Introduction I. History of the Sixgun II. Selecting the Handgun III. Learning To Shoot IV. Sixgun Sights V. Long Range Shooting VI. Game Shooting VII. Double Action Shooting VIII. Gun Rigs and Holsters IX. Quick Draw and Hip Shooting X. Gun Fighting XI. Revolver Versus Auto Pistol XII. Aerial and Trick Shooting XIII. Slip Shooting, Fanning, Cavalry Guns XIV. Loading and Management of

Public Papers of the Presidents of the United States Connection is a monograph of ten residences that articulate the office's design process and exploration of creating architectural solutions rooted in natural place. Connection provides insight into how Colorado-based CCY Architects investigates and formulates the connection between people and place. By way of ten recently completed residential projects located throughout the Rocky Mountain region, CCY Architects shares its process and the specific ideas, discoveries, and challenges

that emerge with each project. The featured award-winning projects are diverse in scale, location, and intention, including residences in pristine nature, in dense neighborhoods, in an avalanche path, and a house wrapped in music. The interaction among design and place begins with questions. How to conduct an "interview" with the land to discover qualities which contribute to more powerful design solutions? What should a changing habitat live like, feel like, look like? As CCY uncovers the potential elements of each project, they reflect on and respond to the genuine qualities of the land, light, and seasons to devise the building blocks of a meaningful environment. Common to all is a respect for the land and an intention to forge connections. A BELOVED CLASSIC FOR DOG LOVERS OF ALL AGES With a new foreword by Ann Patchett In the 1930s, Lucy Dawson's friendly, sympathetic portraits of dogs were so popular with readers of American and British magazines that she agreed to gather them together in a book, Dogs As I See Them. Now available once again after being out of print for decades, and a complete replication the original 1936 edition, Dogs As I See Them includes all of Dawson's irresistible graphite and pastel drawings and handwritten notes. Along with her illustrations are her own amusing stories about the conduct of each of her subjects as they posed for her. Her charming reminiscences interpret the character and

mood of each dog, and make us friends at once with each and every one in this gallery of endearing portraits. Dogs As I See Them is a remarkable collection dog lovers of all generations will take to their hearts. A complete guide to the penny whistle for beginning to advanced players. "The compass's rocky evolution is charted with an enthusiast's passion...A fascinating adventure." —Bernadette Murphy, Los Angeles Times This is the rich history of the most important navigational device of all time, the magnetic compass, born of the need for a reliable means of negotiating treacherous sea routes around the globe. Compass chronicles

the misadventures of those who attempted to perfect the instrument—so precious to sixteenth-century seamen that, by law, any man found tampering with one had his hand pinned to the mast with a dagger. Part history, part adventure, this book is a compelling tribute to human ingenuity—and the mysteries of the sea. Andrea Cornwall is Professor of Anthropology and Development in the School of Global Studies at the University of Sussex. -- “This love story is heartrending, swoon-worthy, and extremely well-told.” —Publishers Weekly, starred review A man who’s been moving his whole life finally finds a reason to stay put. Charlie Matheson has spent his life taking care of things. When

his parents died two days before his eighteenth birthday, he took care of his younger brother, even though that meant putting his own dreams on hold. He took care of his father’s hardware store, building it into something known several towns over. He took care of the cat he found in the woods...so now he has a cat. When a stranger with epic tattoos and a glare to match starts coming into Matheson’s Hardware, buying things seemingly at random and lugging them off in a car so beat-up Charlie feels bad for it, his instinct is to help. When the man comes in for the fifth time in a week, Charlie can’t resist intervening. Rye Janssen has spent his life breaking things. Promises. His parents’ hearts. Leases. He isn’t used to people

wanting to put things back together—not the crumbling house he just inherited, not his future and certainly not him. But the longer he stays in Garnet Run, the more he can see himself belonging there. And the more time he spends with Charlie, the more he can see himself falling asleep in Charlie’s arms...and waking up in them. Is this what it feels like to have a home—and someone to share it with? Carina Adores is home to romantic love stories where LGBTQ+ characters find their happily-ever-afters.
